

DSI-SG-42

Pius Yee | Lim Zheng Gang | Eugene Matthew Cheong

Could we provide house evaluation prices consistently based on data?

Client Feedbacks

George Lee

33 years old
Marine Engineer

George Lee

33 years old | Marine Engineer

Expressed dissatisfaction from George, a seller.

- **Contradicting information**
 - E.g. Is his house worth more because it is near Joo Chiat Complex?
- **Waiting time for evaluation took too long**
- **The estimation provided by agents were very different.**

Problem Statement

Our current manual process of evaluating property data for customers is **time-consuming** and prone to **inconsistencies**, as it relies on individual agents generating analysis independently.

We have developed a model where our agents can provide invaluable insights and make **data-driven decisions**, ensuring a **standardized approach** to property valuation.

HDB Price Predictor

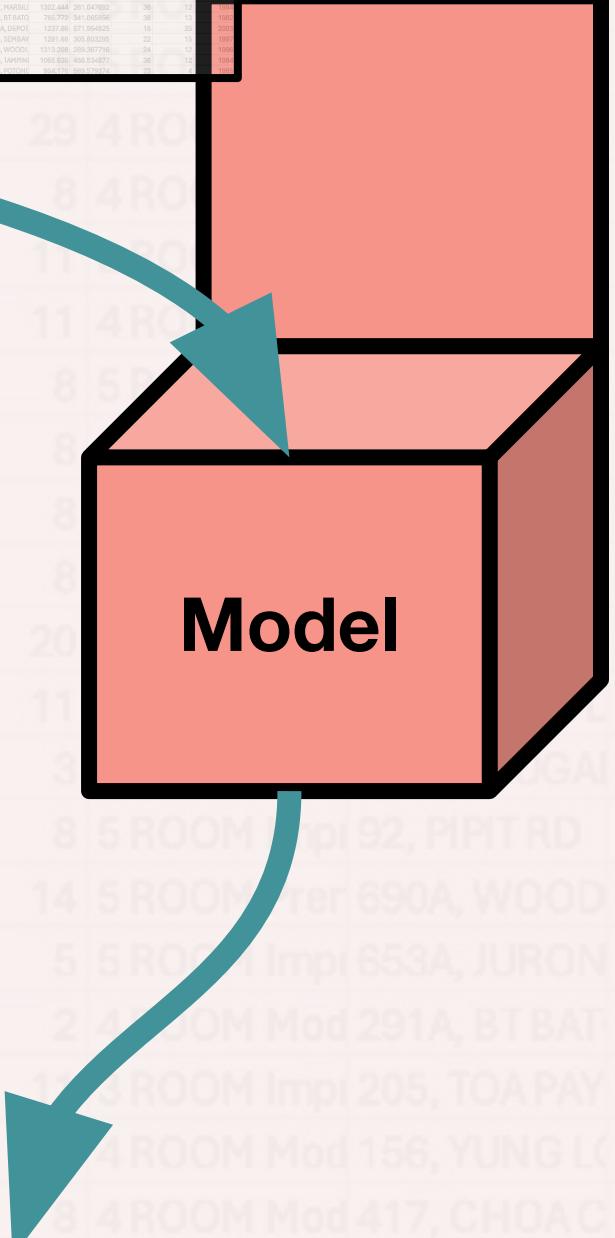

Delivering Clients' Satisfaction through Data Integration

Predicted result:
\$642,088

Model

Why use it?

App based on our data

Benefits

- Quickly obtain prices in the area when meeting with clients
- Shows client the importance of certain amenities that affects the price.
- Give the clients the assurance that the price evaluations are based on data.

Why change?

Clients' expectations are difficult

Difficult to predict a price and show the differences with certain amenities on the spot

Assumptions stem from experiential knowledge

Instead of basing our estimations on assumptions, we should validate it **with data** so that our agents provide clients with **consistent information**

Assumptions

- Mature or Non-matured estates
- Higher floor units
- Near MRT station
- Near Schools
- Near Hawker centres or Malls

Data

- Mature or Non-matured estates
- Higher floor units
- Near MRT station
- Near Schools
- Near Hawker centres or Malls

George Lee

33 years old | Marine Engineer

Expressed dissatisfaction from George, a seller.

- **Contradicting information**
 - E.g. Is his house worth more because it is near Joo Chiat Complex?
- **Waiting time for evaluation took too long**
- **The estimation provided by agents were very different.**

Findings

- Mature or Non-matured estates
- Higher floor units
- Near MRT station
- Near Schools
- Near Hawker centres

Mature or Non-matured estates

- Mature estates tend to have higher resale prices?

Mature or Non-matured estates

- Mature estates tend to have flats that are smaller and older?

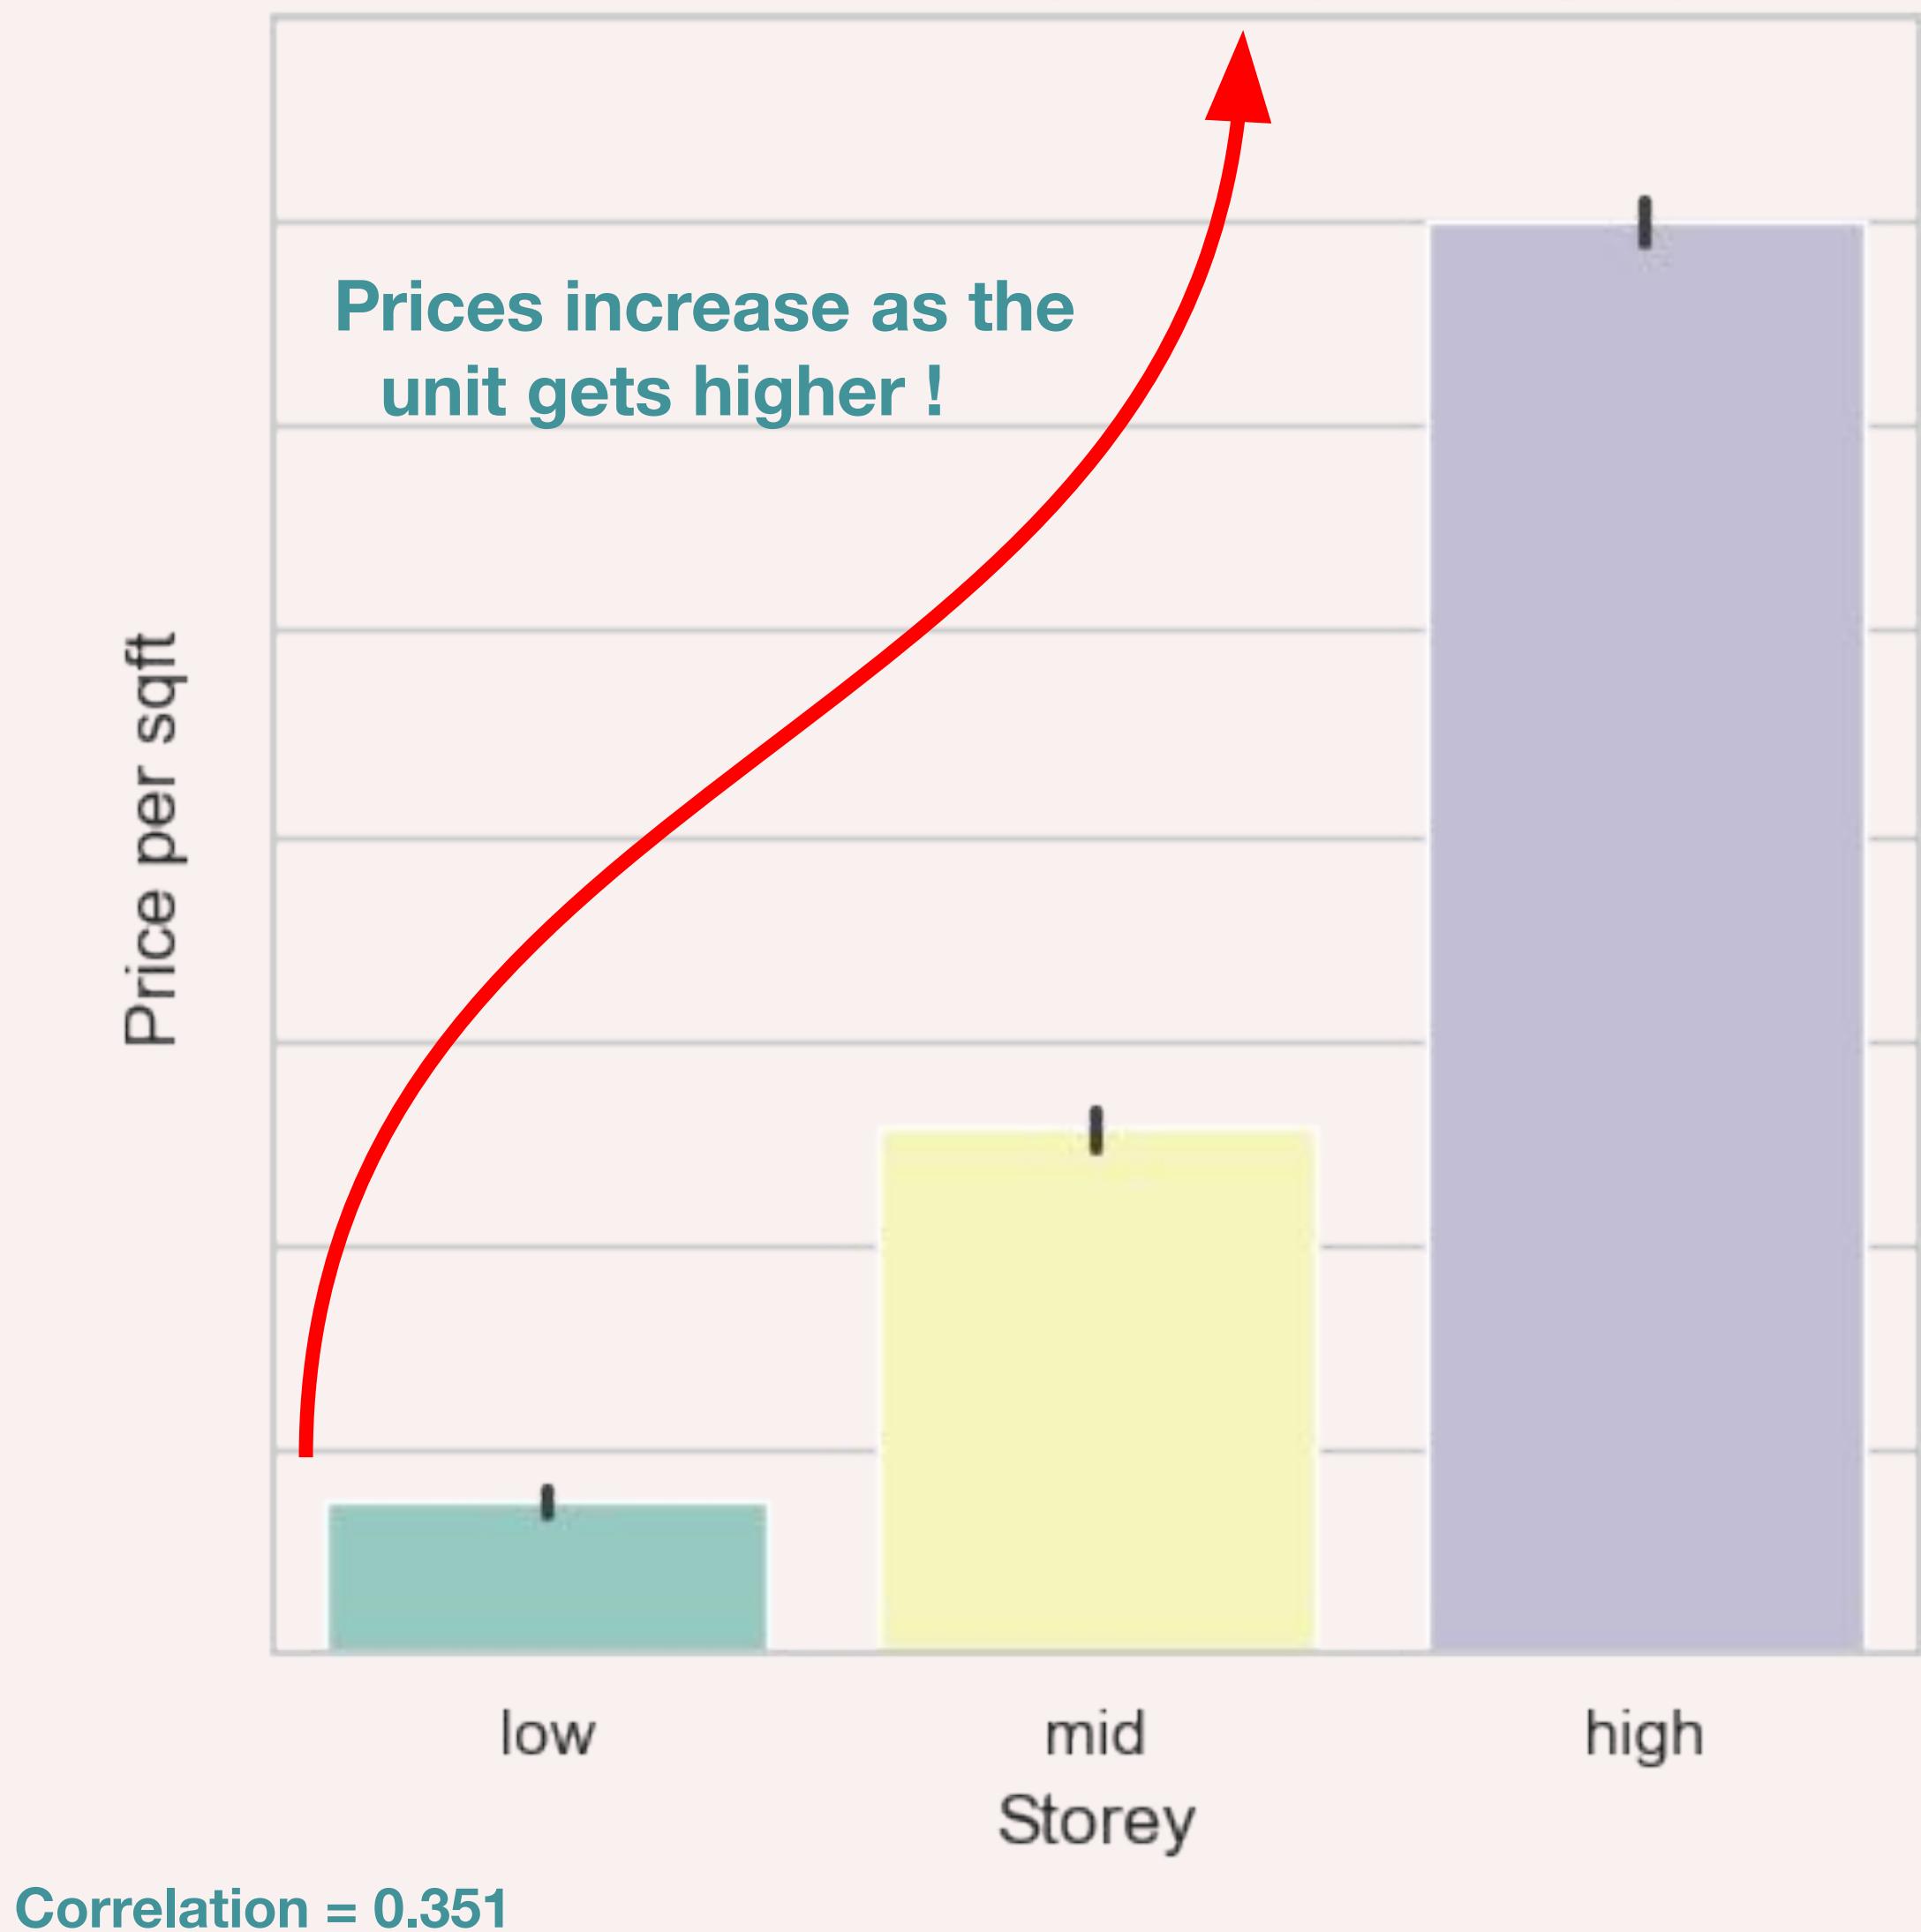

High floor units

The units on higher floors tend to have better resale value?

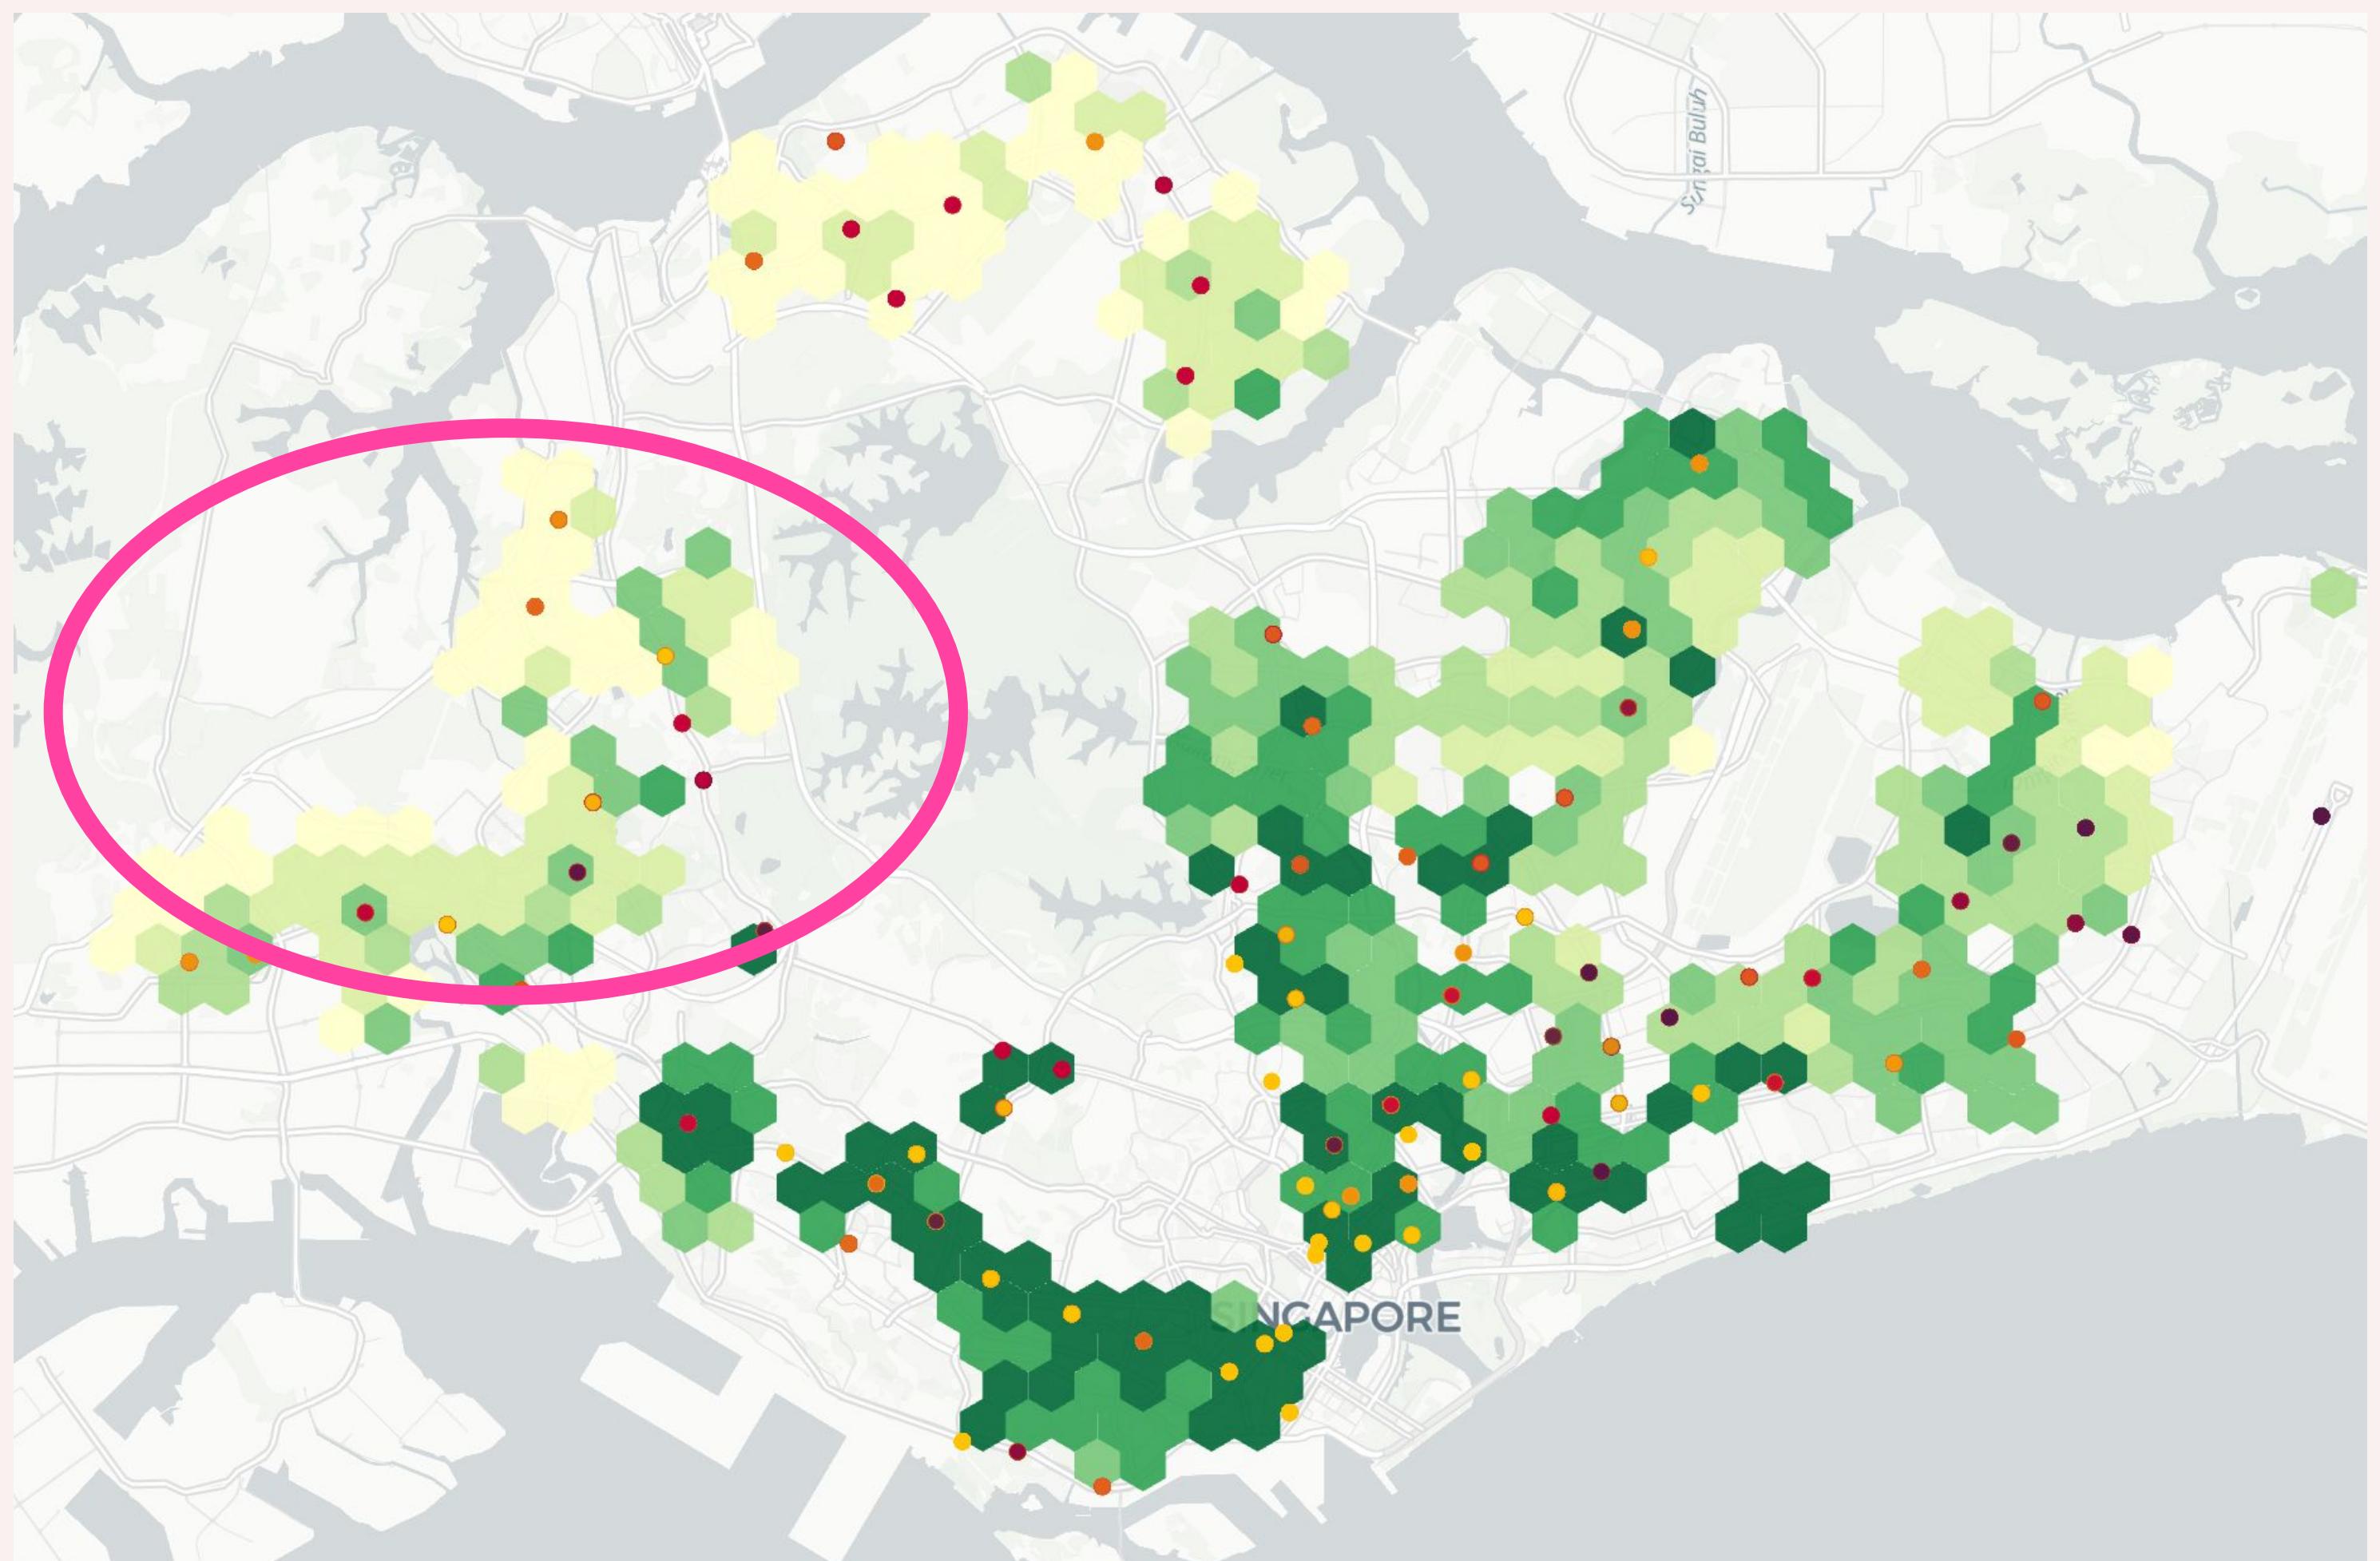

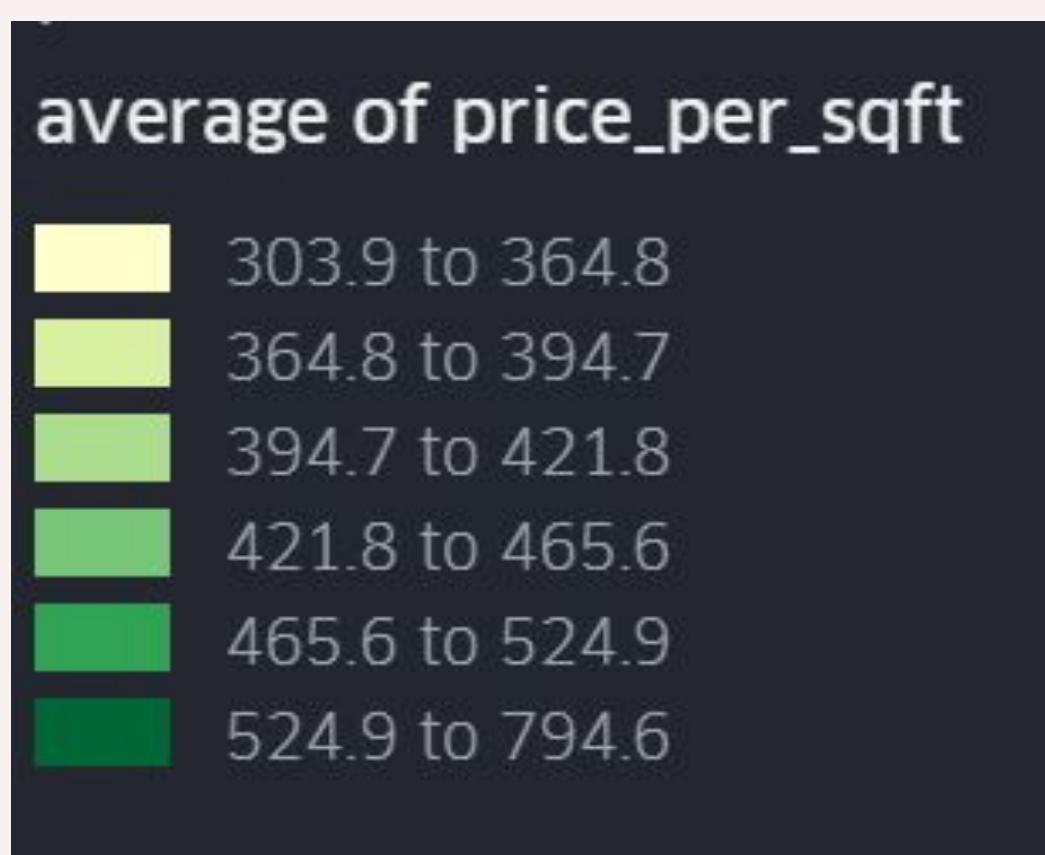

Price per sqft by Storey Category

Near MRT station

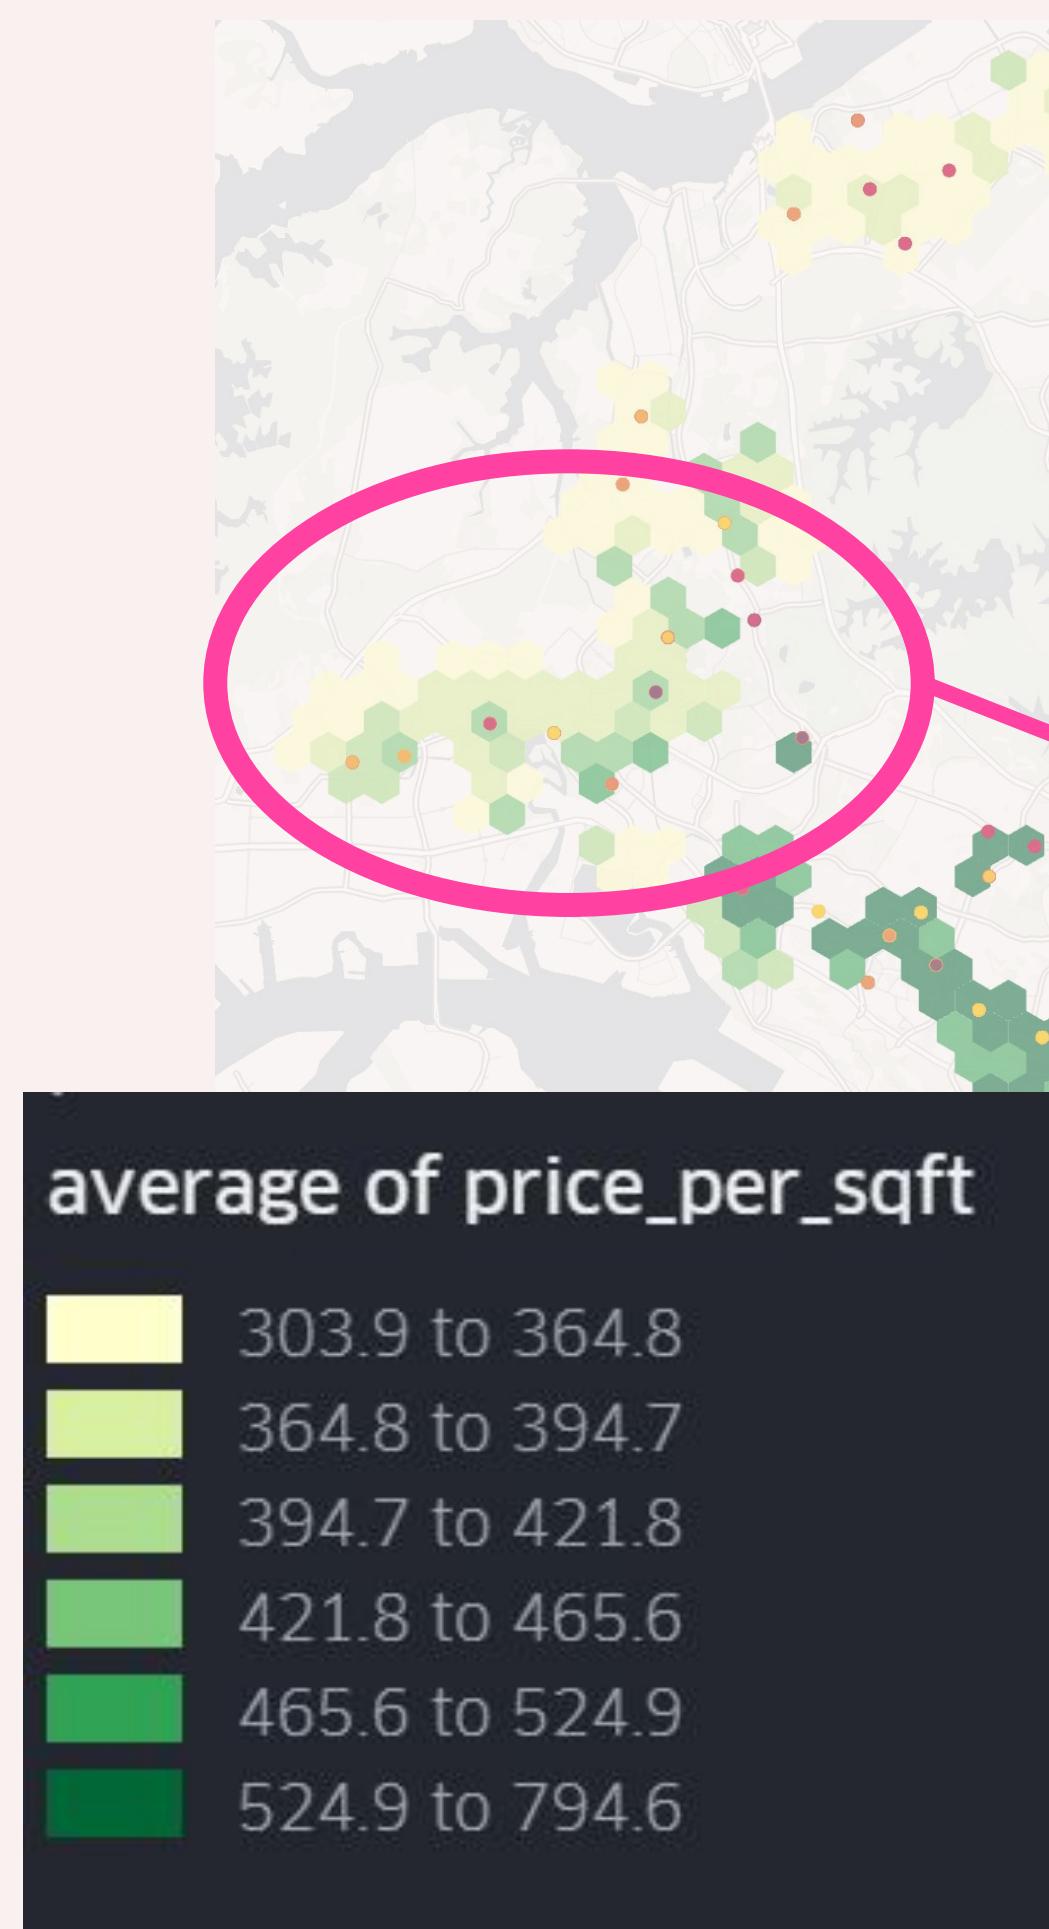

- Higher resale price for flats near to MRT?

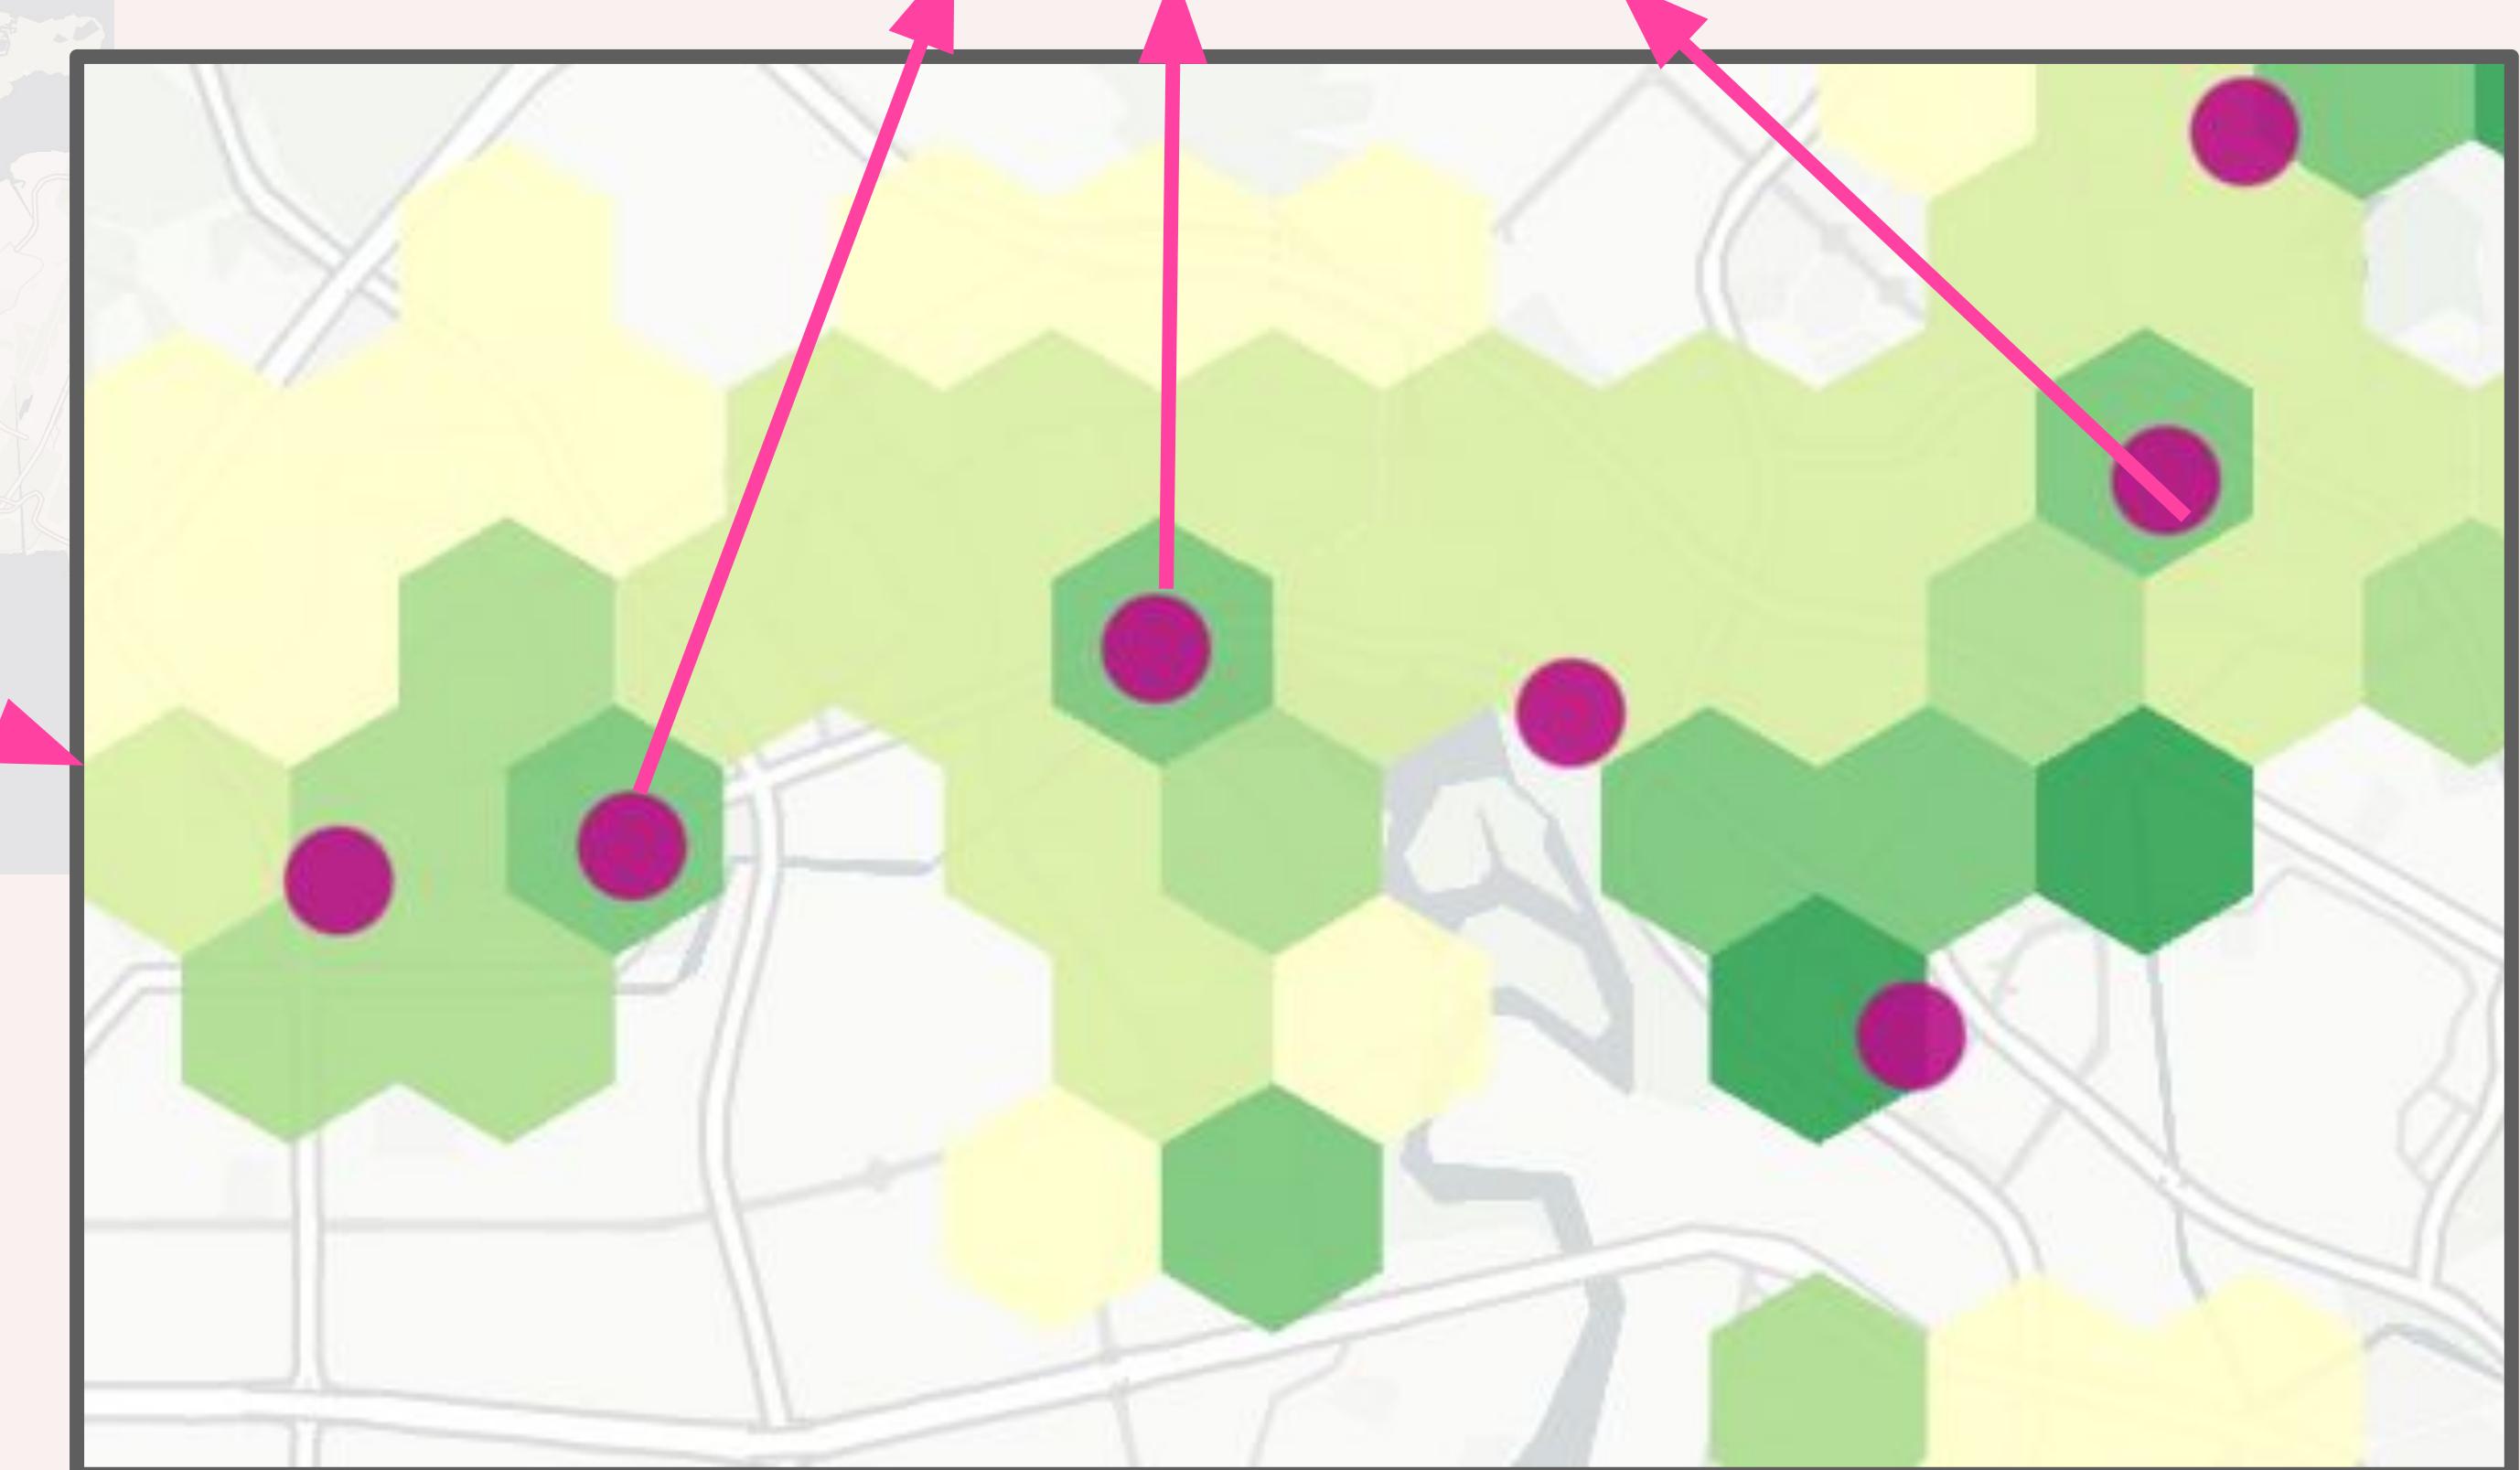

Near MRT station

Near MRT station

Prices tend to be higher in areas near surrounding MRT stations

Primary Schools

We **assumed** that houses nearer to primary schools will command better resale prices

BUT IS IT REALLY TRUE?

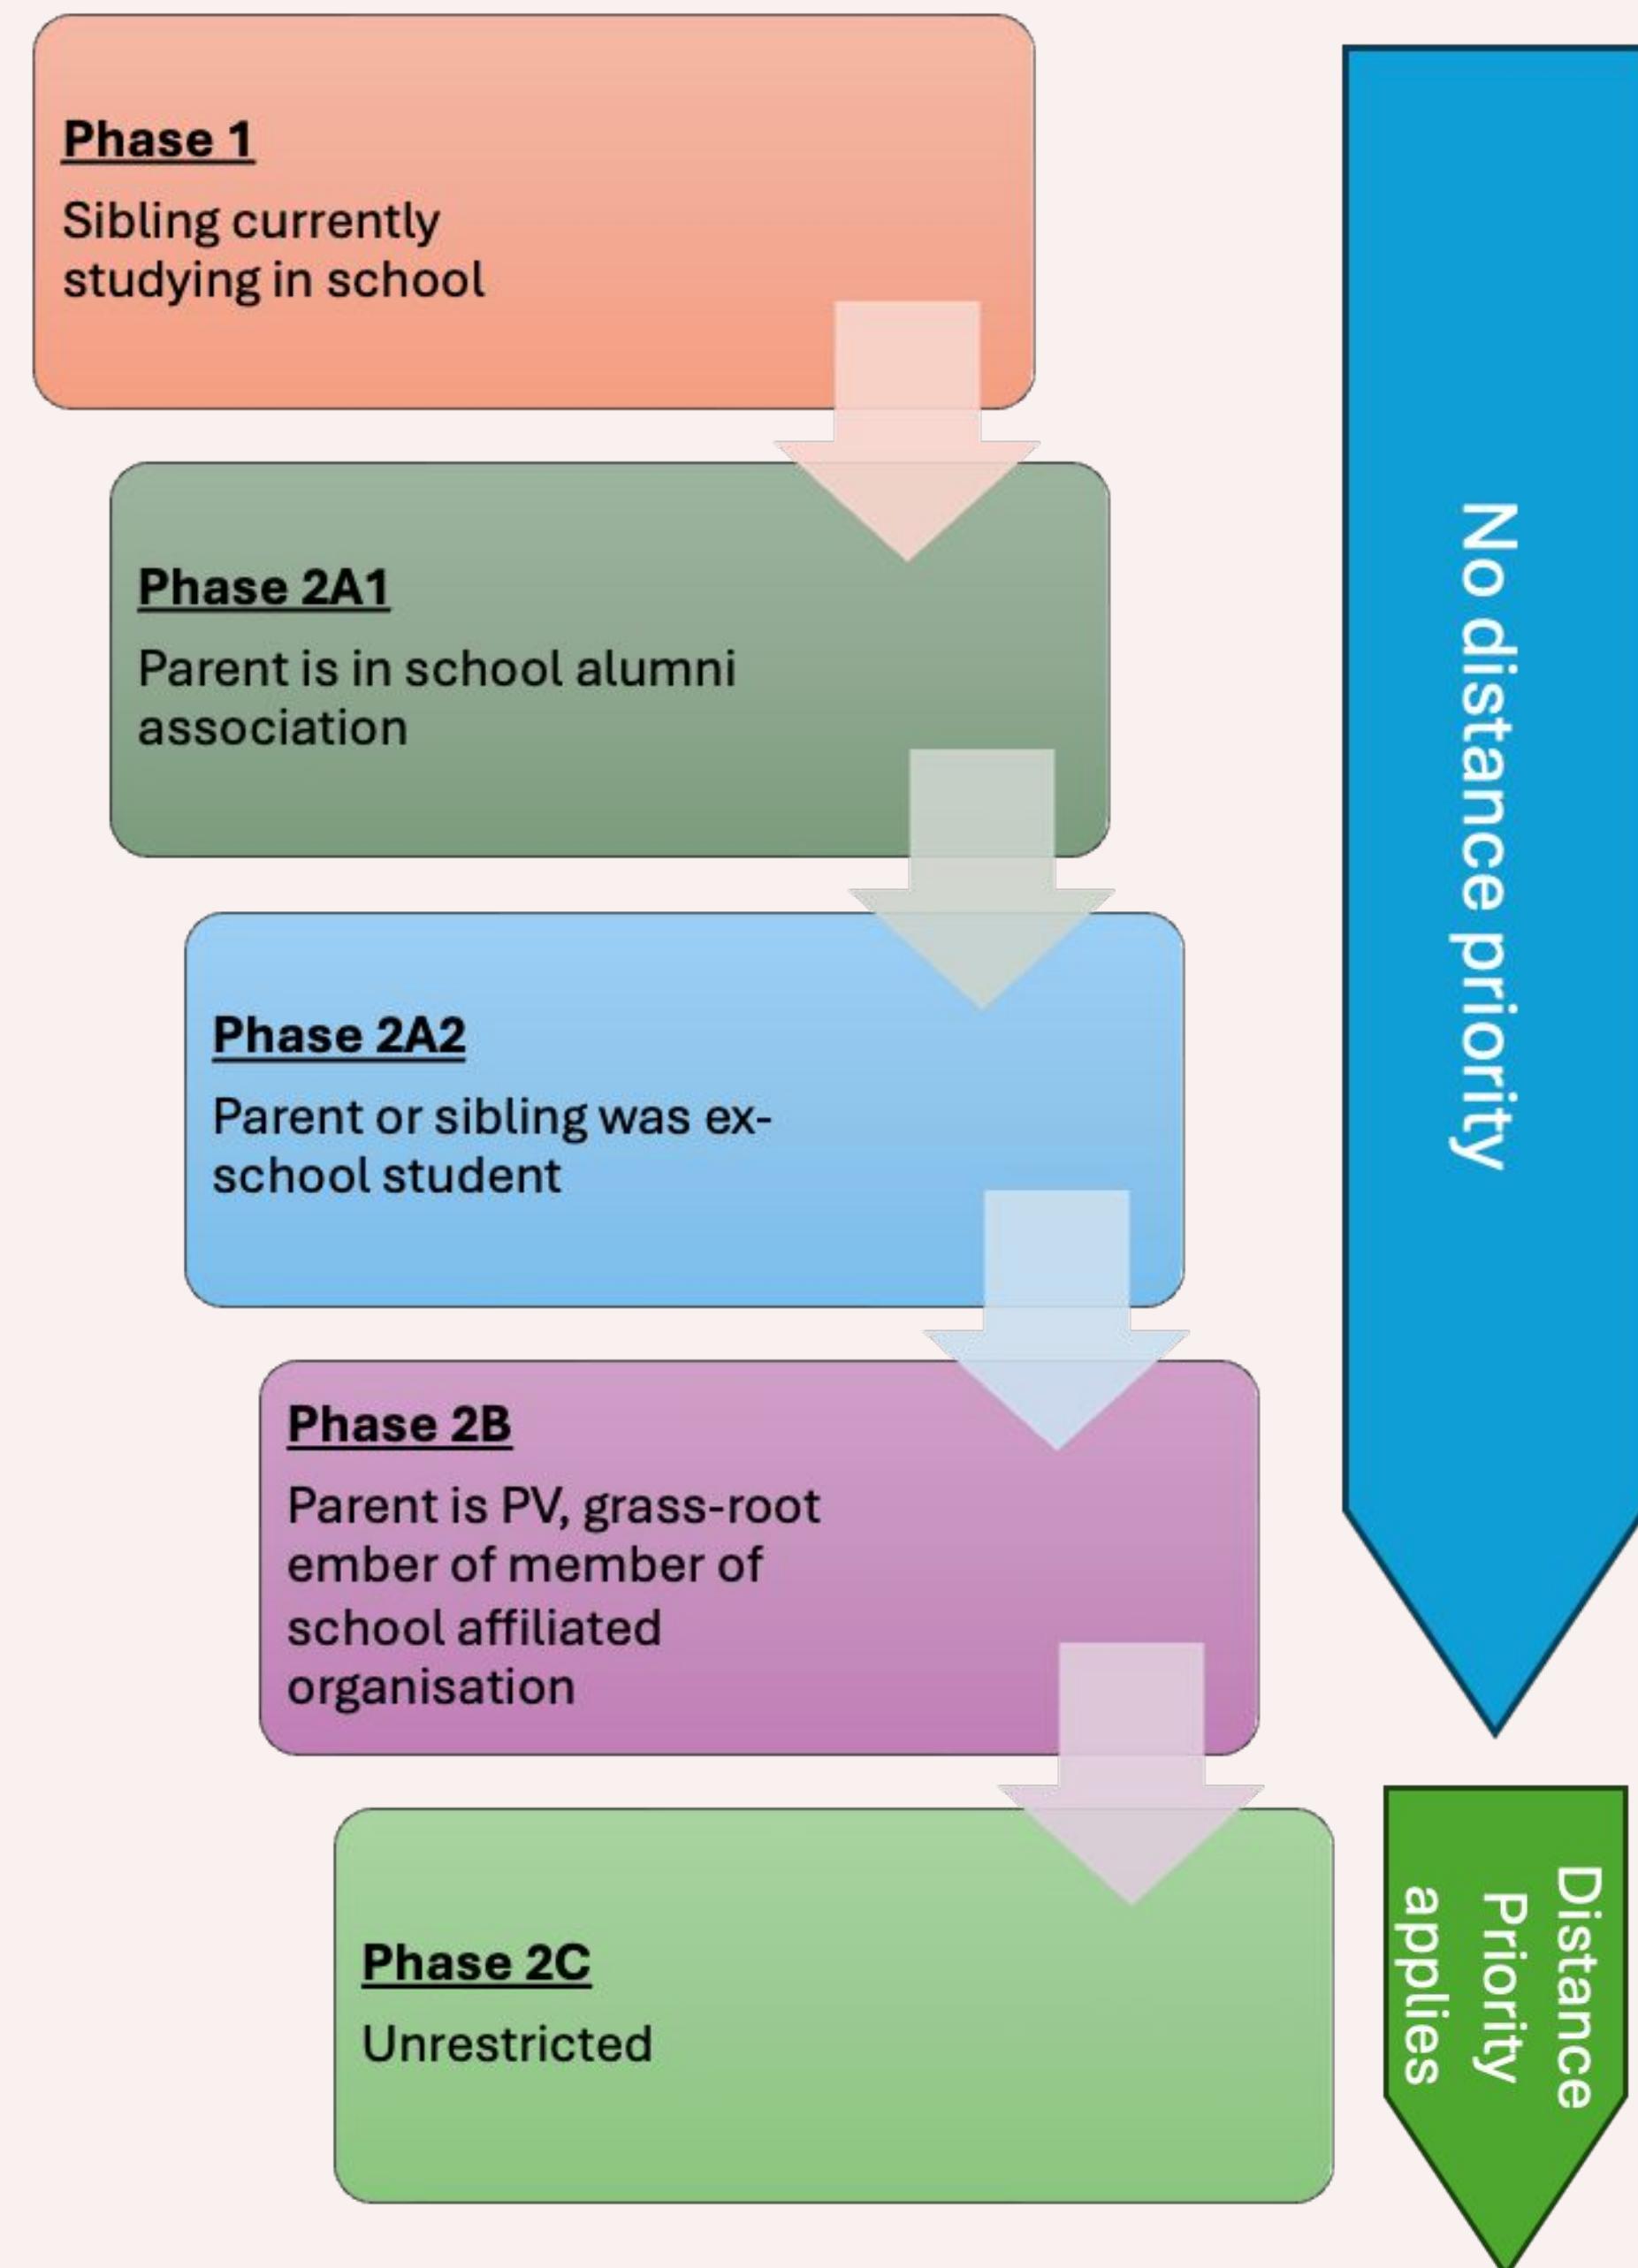

Primary Schools

Based on our qualitative and quantitative research

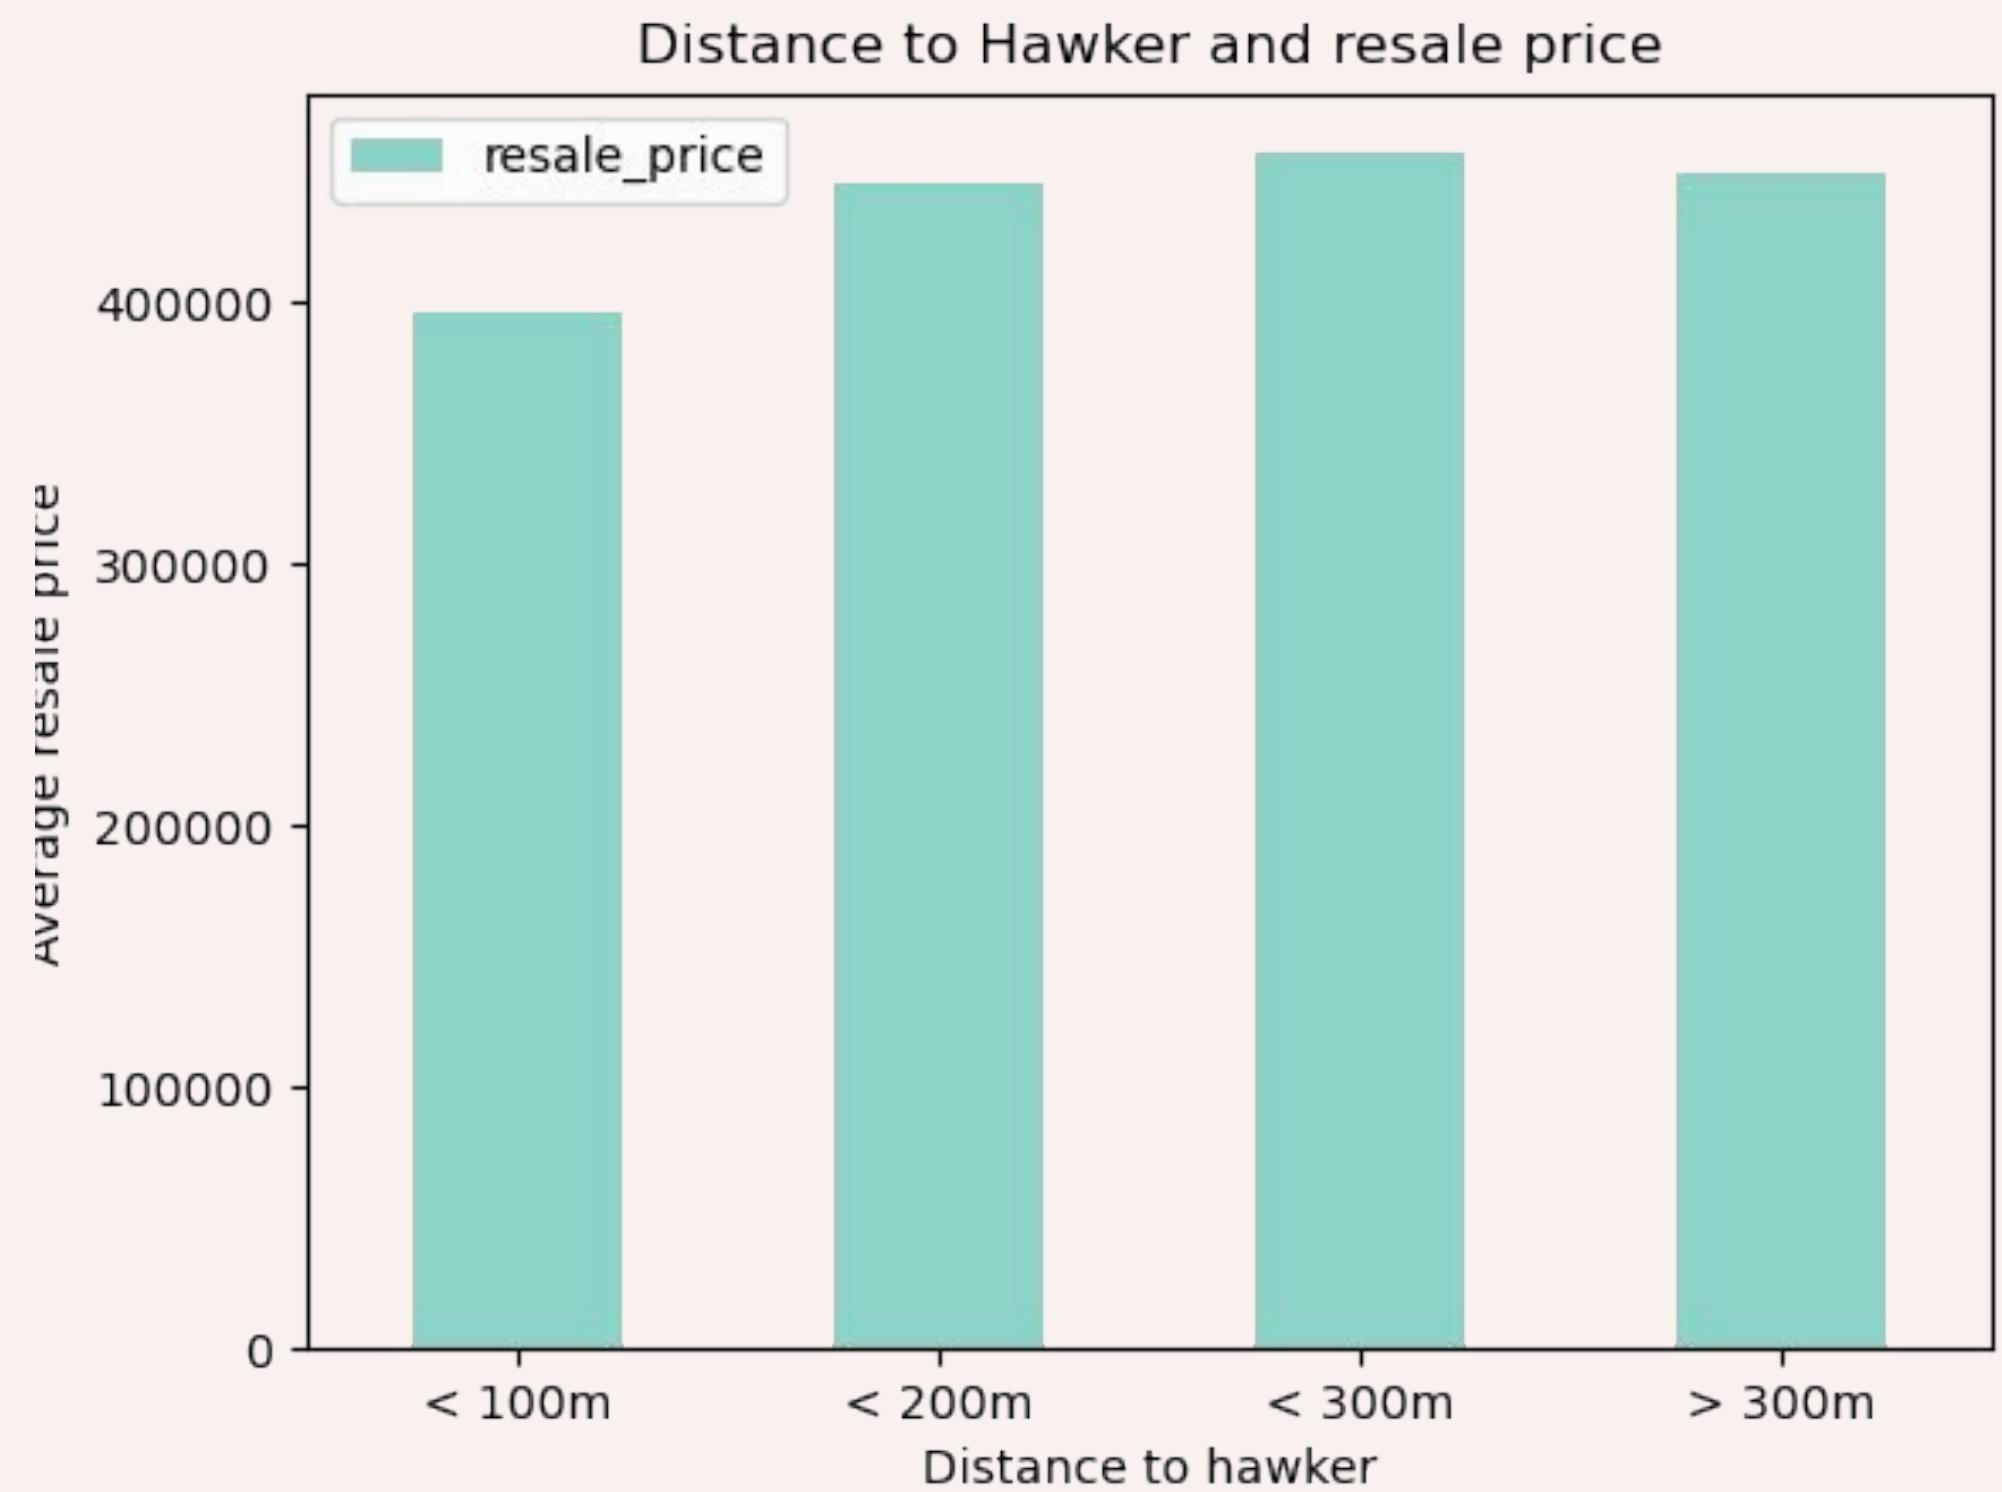

- Unable to derive conclusive results due to:**
- Difficulty in isolating this against other factors**
 - Some people HATE living near schools due to noise pollution.**
 - Registration before phase 2C is more important**

[Stacked homes, 2023](#)

Hawkers

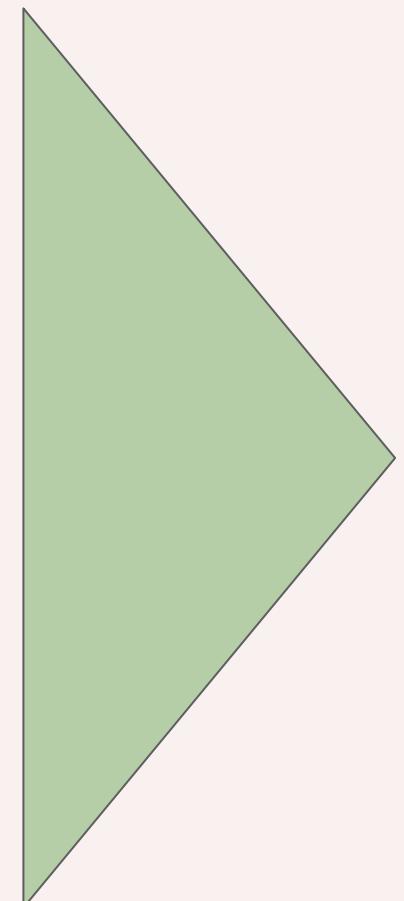

- Near to hawker tends to have higher resale price?

- Houses near Hawker Centre does not show the expected increase in **Resale prices**.
- This shows that there are underlying variables and factors that impacts this relationship.

Summary of Findings

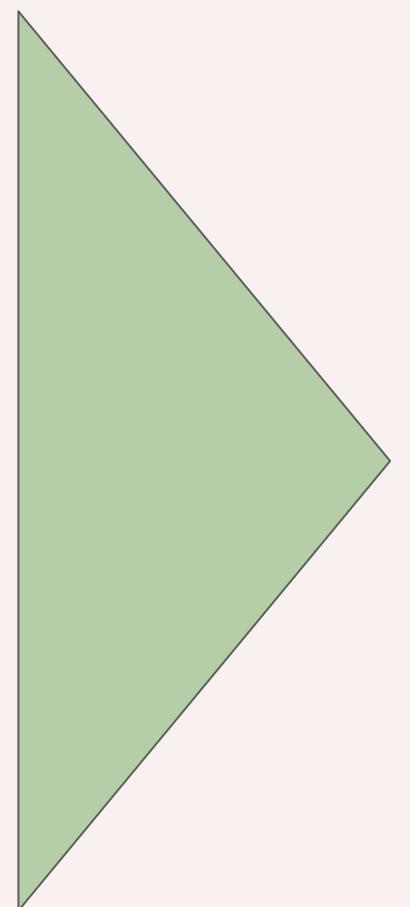

- **Higher** resale price in Mature estates
- **High** chance to find smaller and older flats in Mature estate
- Higher floor units are priced **higher**
- Units near MRT are priced **higher**
- **Inconclusive** relationship between price and distance to primary school
- Near Hawker centres **does not have the expected impact** in resale prices generally

George now receives consistent, data driven information from our agents

**Predicted result:
\$642,088**

Selecting Features

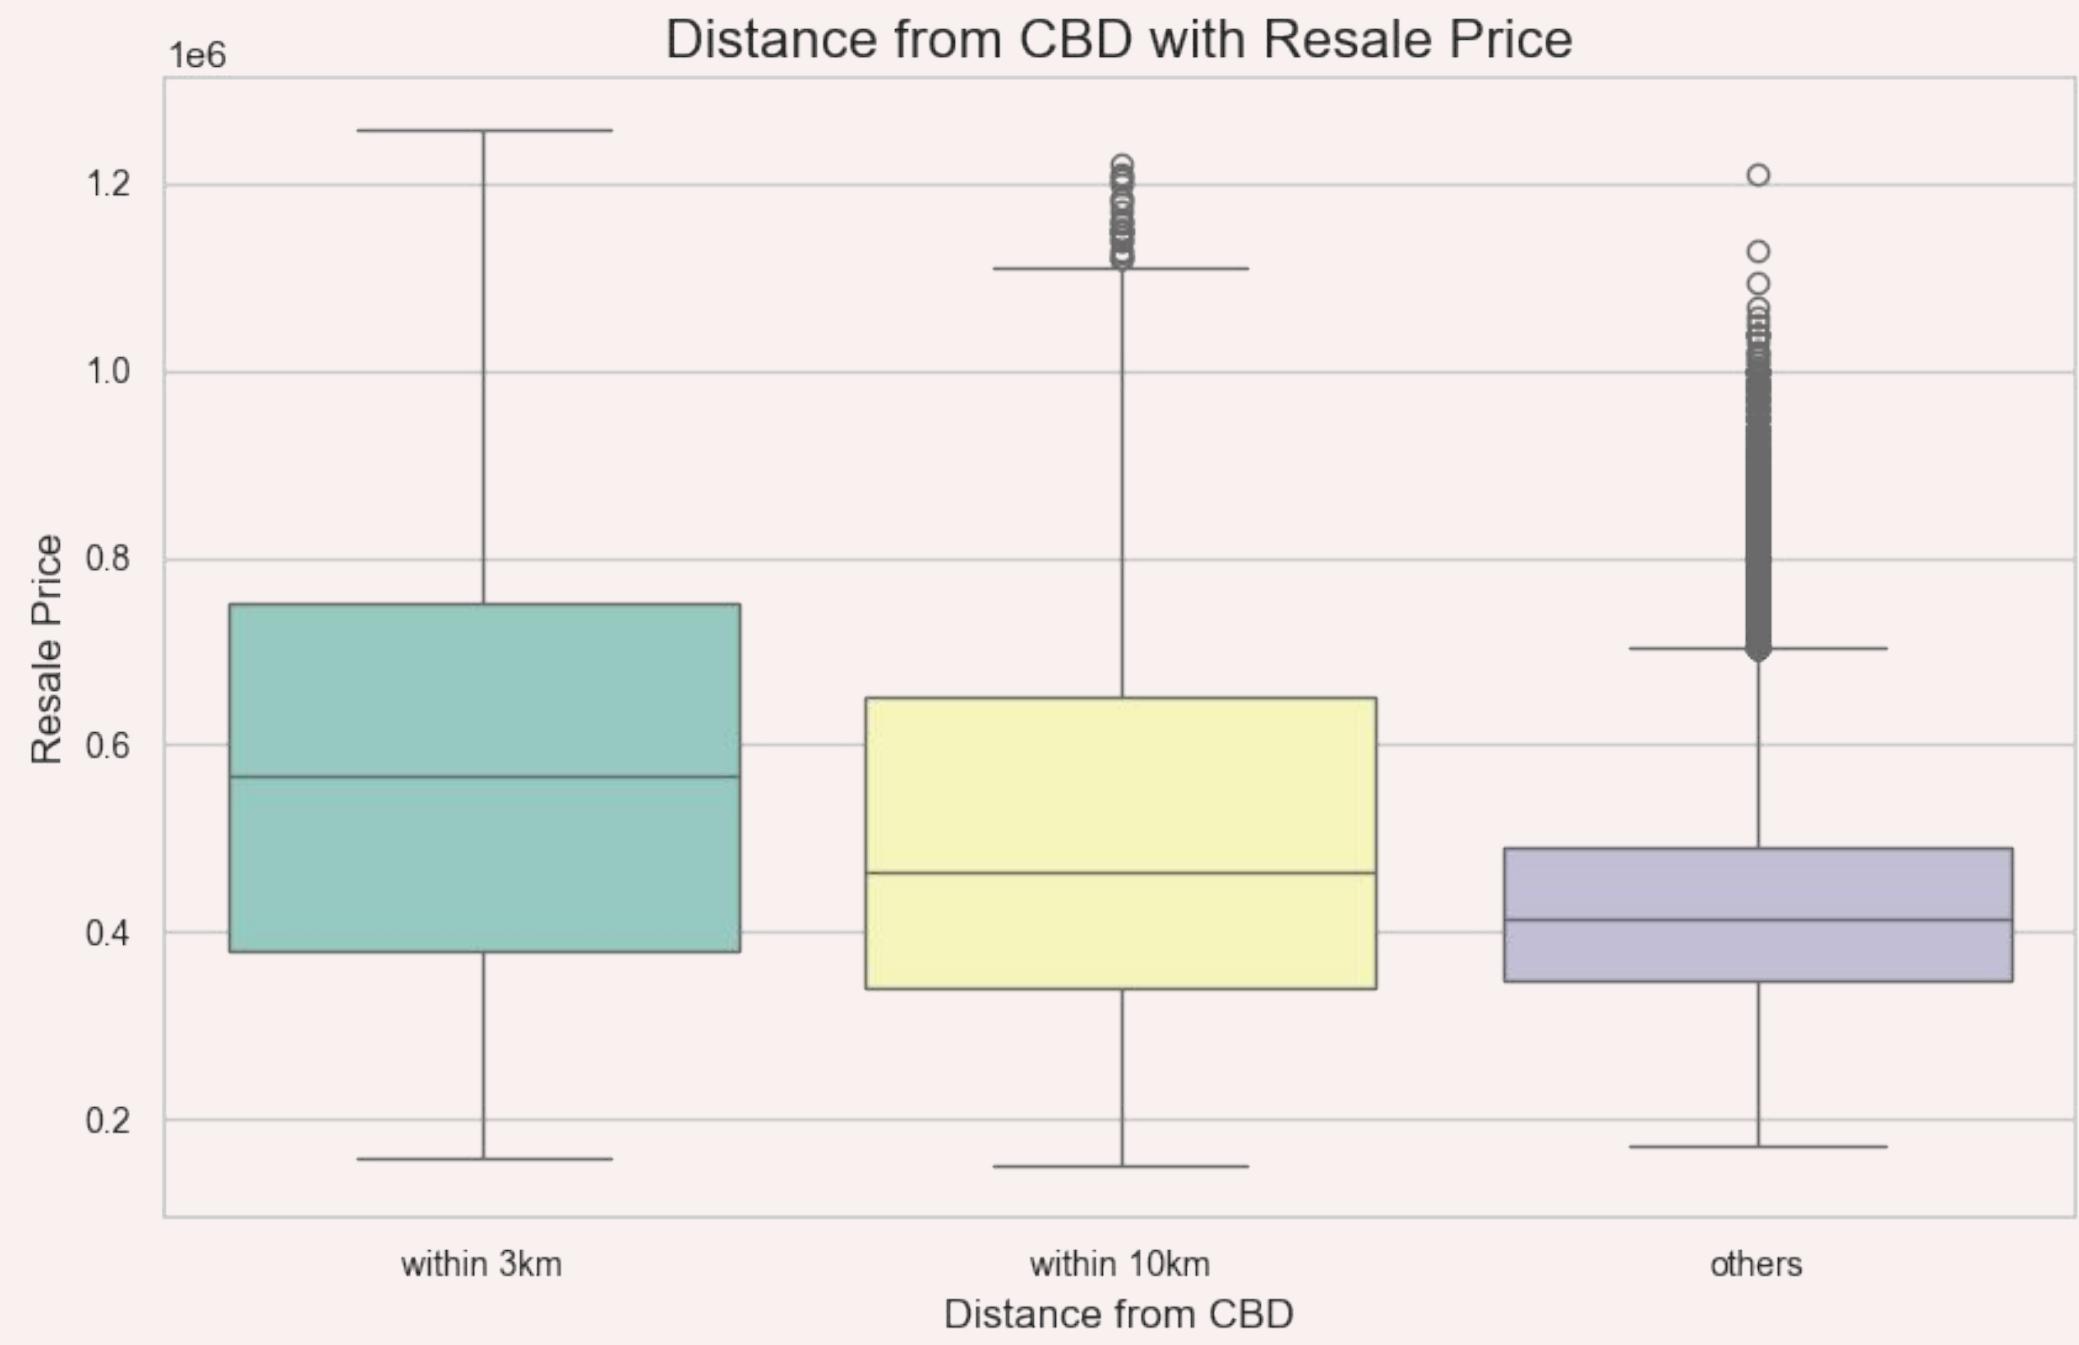

- Floor level
- Distance to nearest MRT
- Mature / Non- Mature Estate
- Transaction Year
- Age of houses as of transaction year
- Flat Type
- Flat Model
- Planning Area

Engineered New Features

Based on domain knowledge, we have also engineered additional features that is unique to our model

- **Distance from Central Business District (CBD)**
- Distance from the nearest “Super Mall”
- Corrections to model based on unique flat types

Distance From CBD

- Units near CBD have generally have a higher price.

Engineered New Features

Based on domain knowledge, we have also engineered additional features that is unique to our model

- ~~Distance from Central Business District (CBD)~~
- **Distance from the nearest “Super Mall”**
- Corrections to model based on unique flat types

Are all malls created equal?

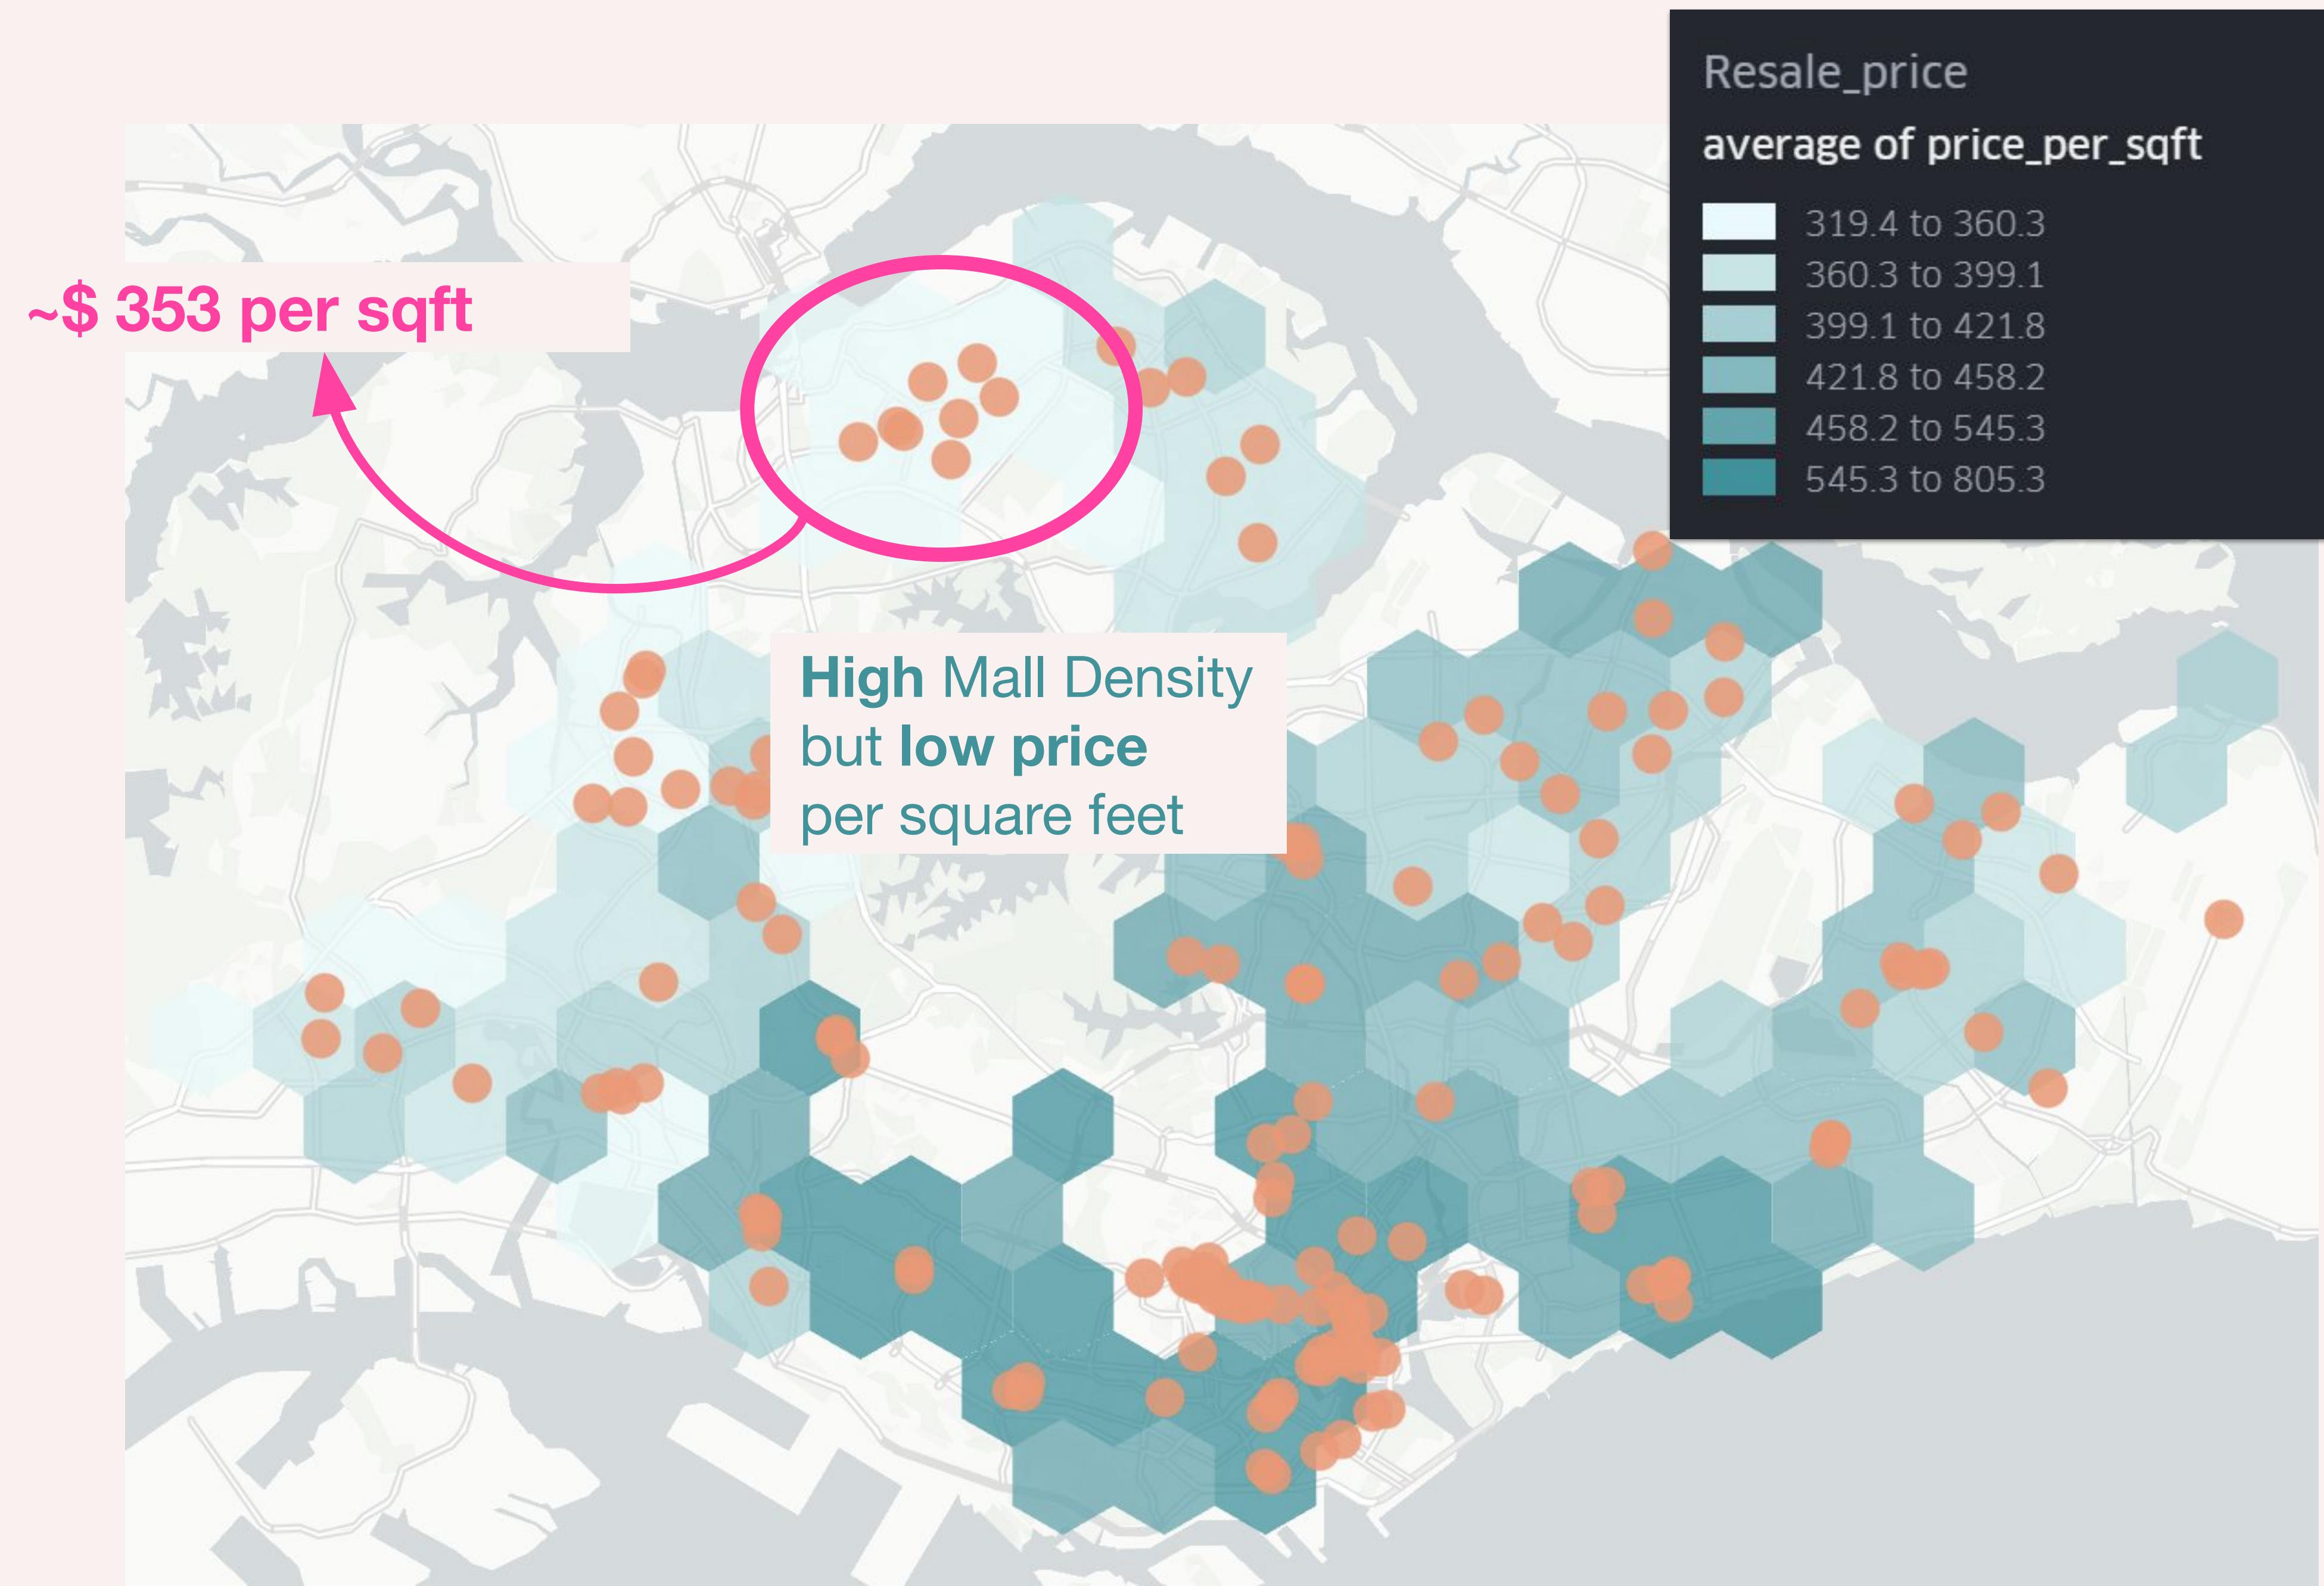

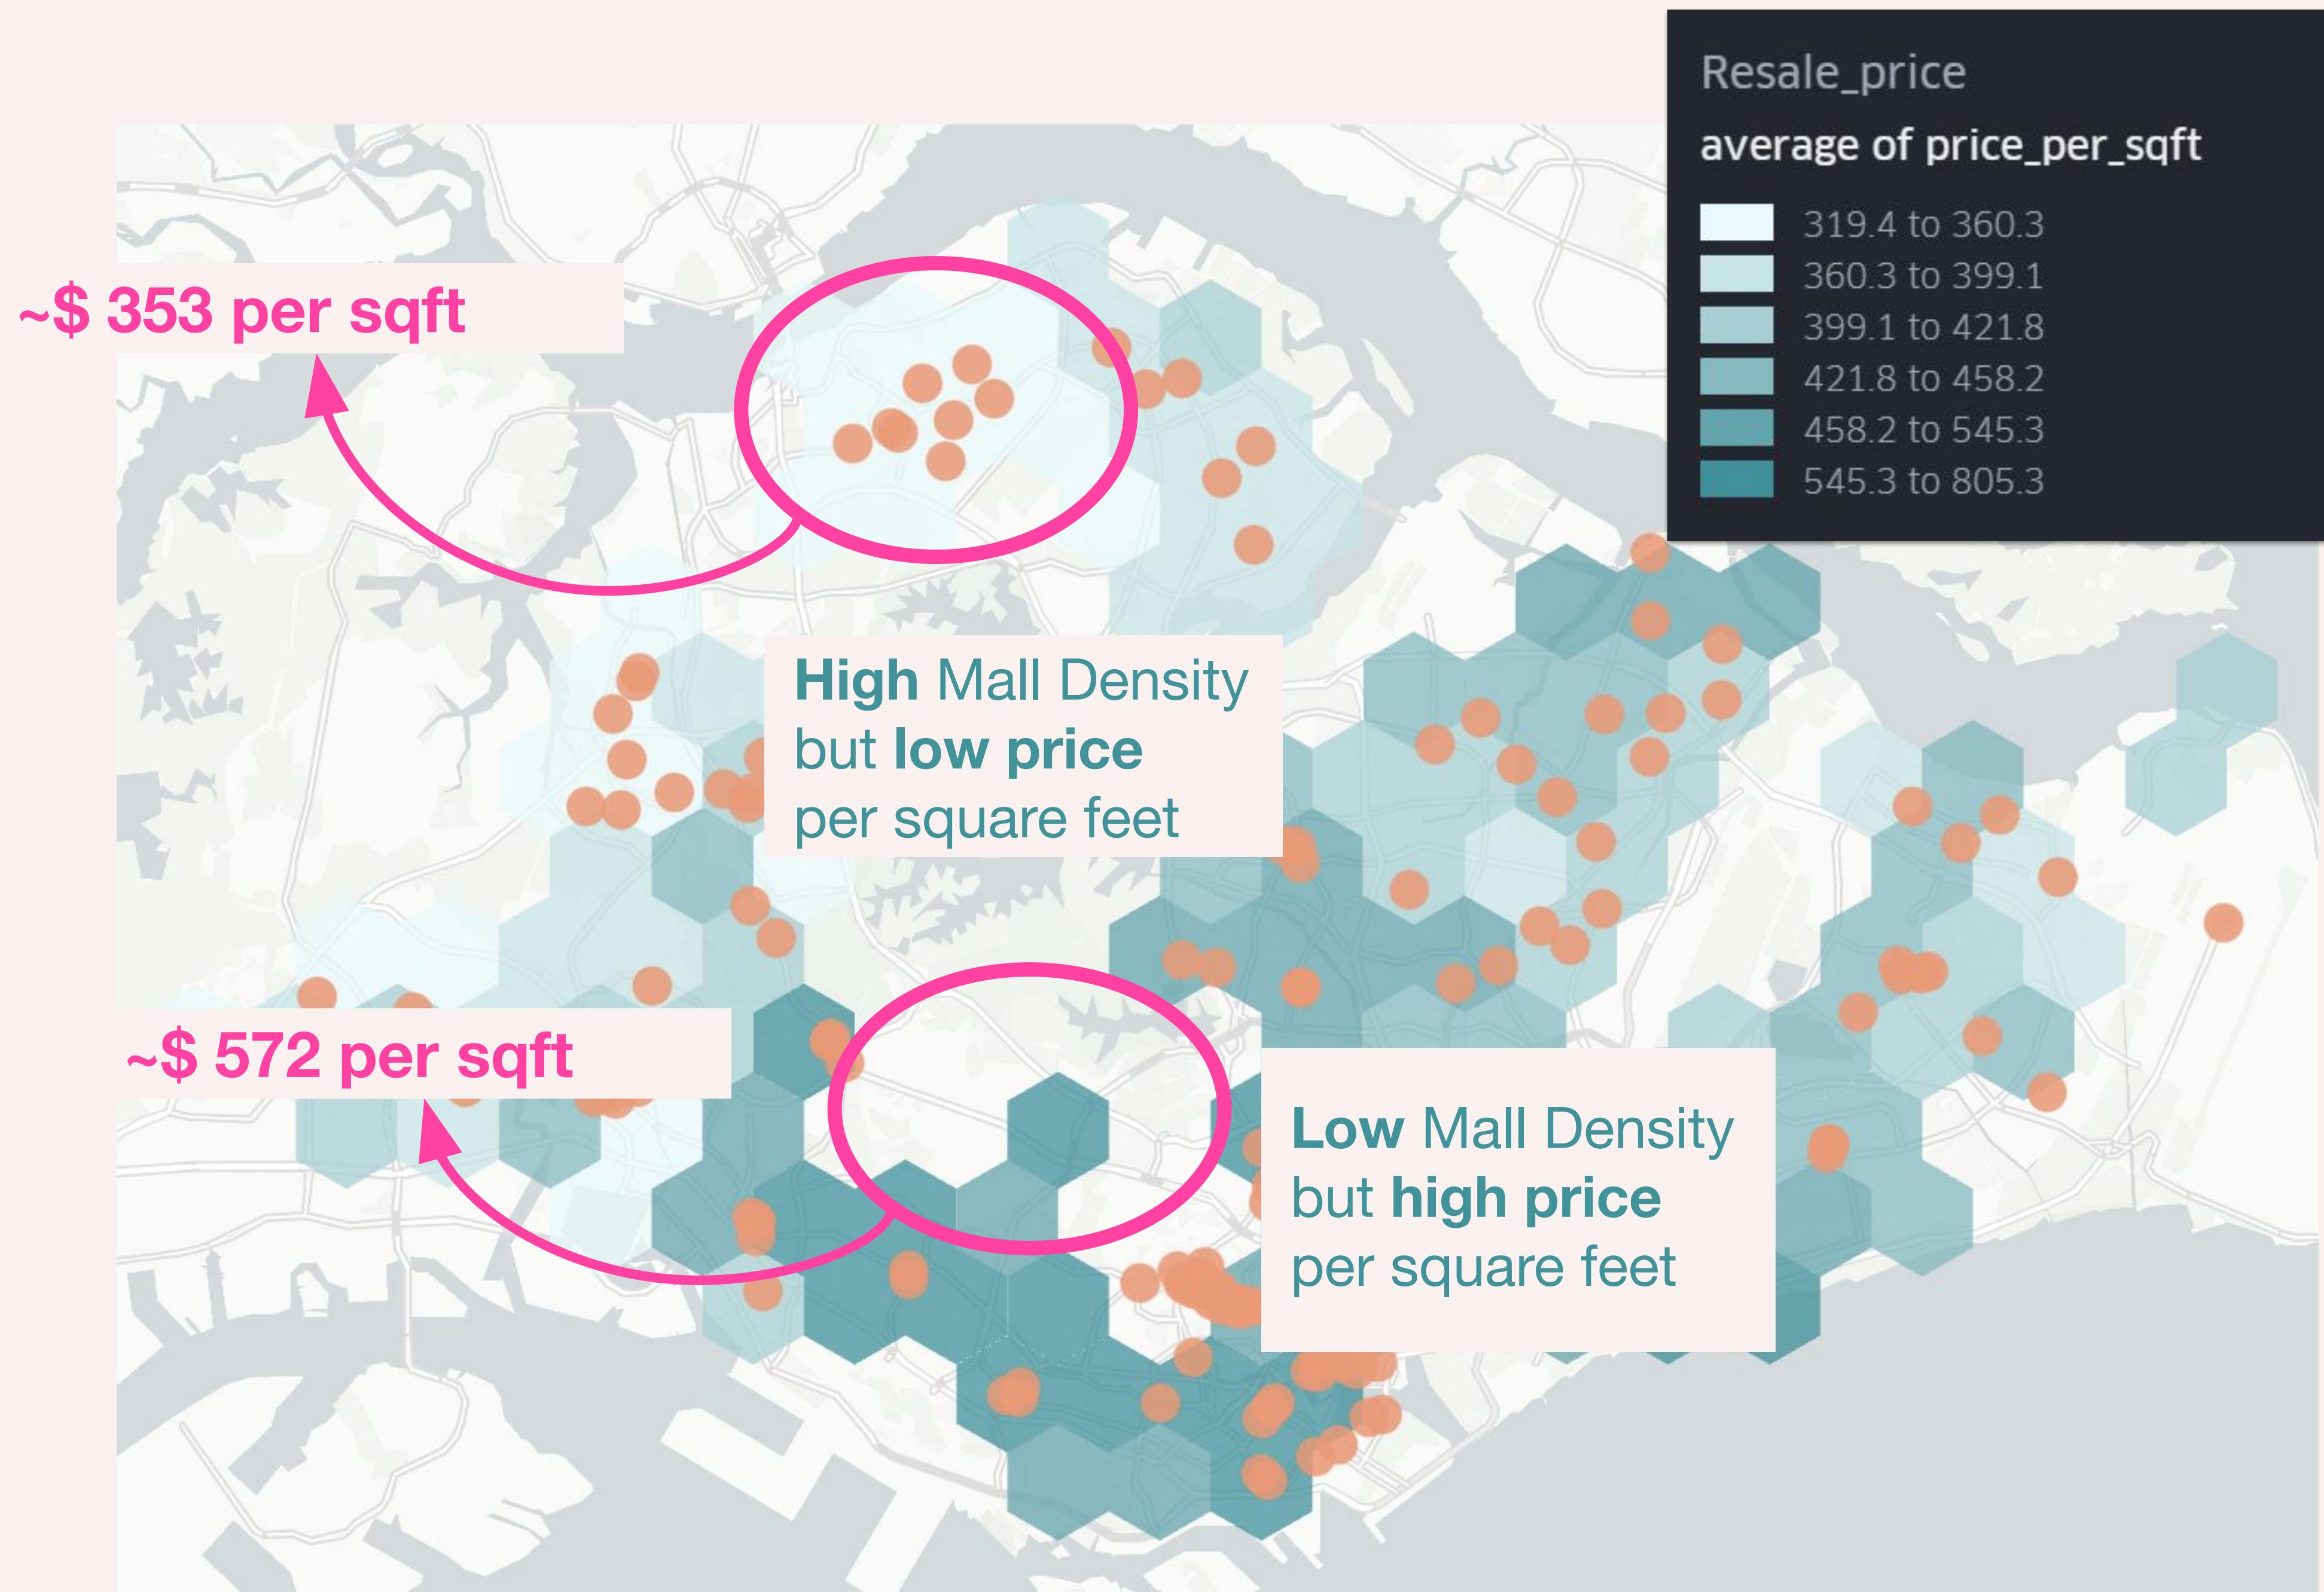

Joo Chiat Complex

VS

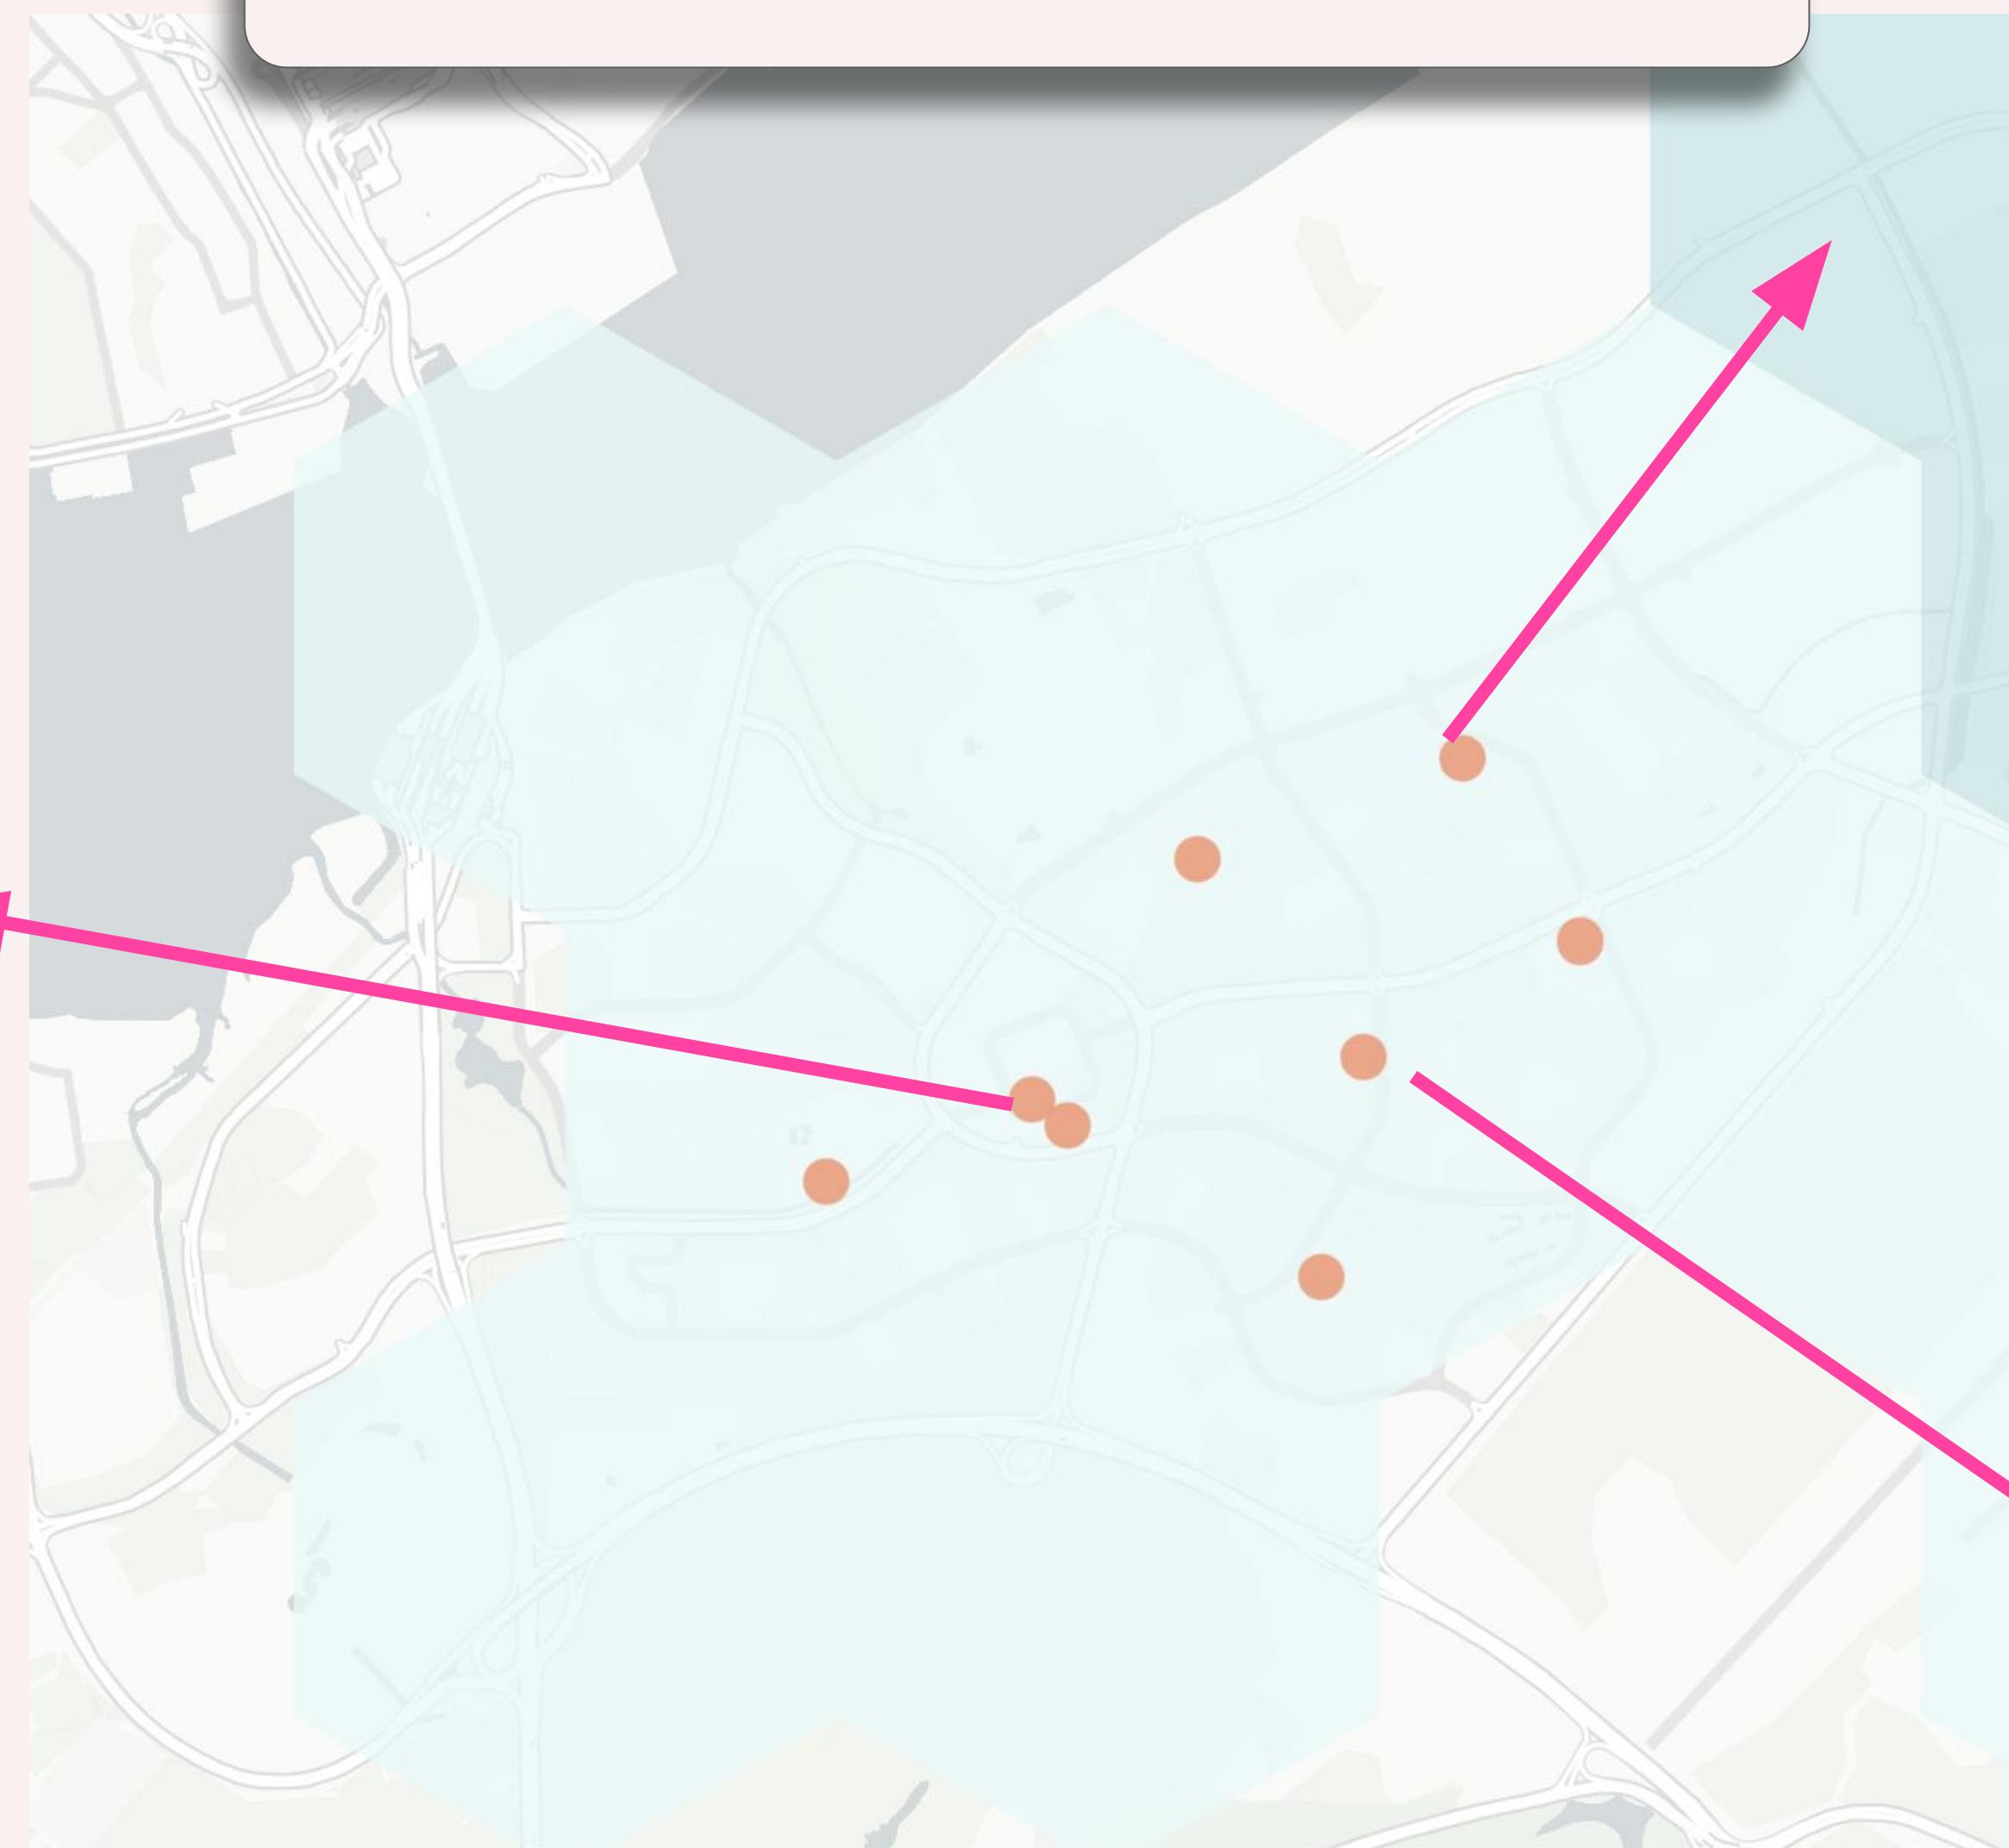

Paya Lebar Quarter

Malls? Or Pseudo Malls?

Woodlands North Plaza

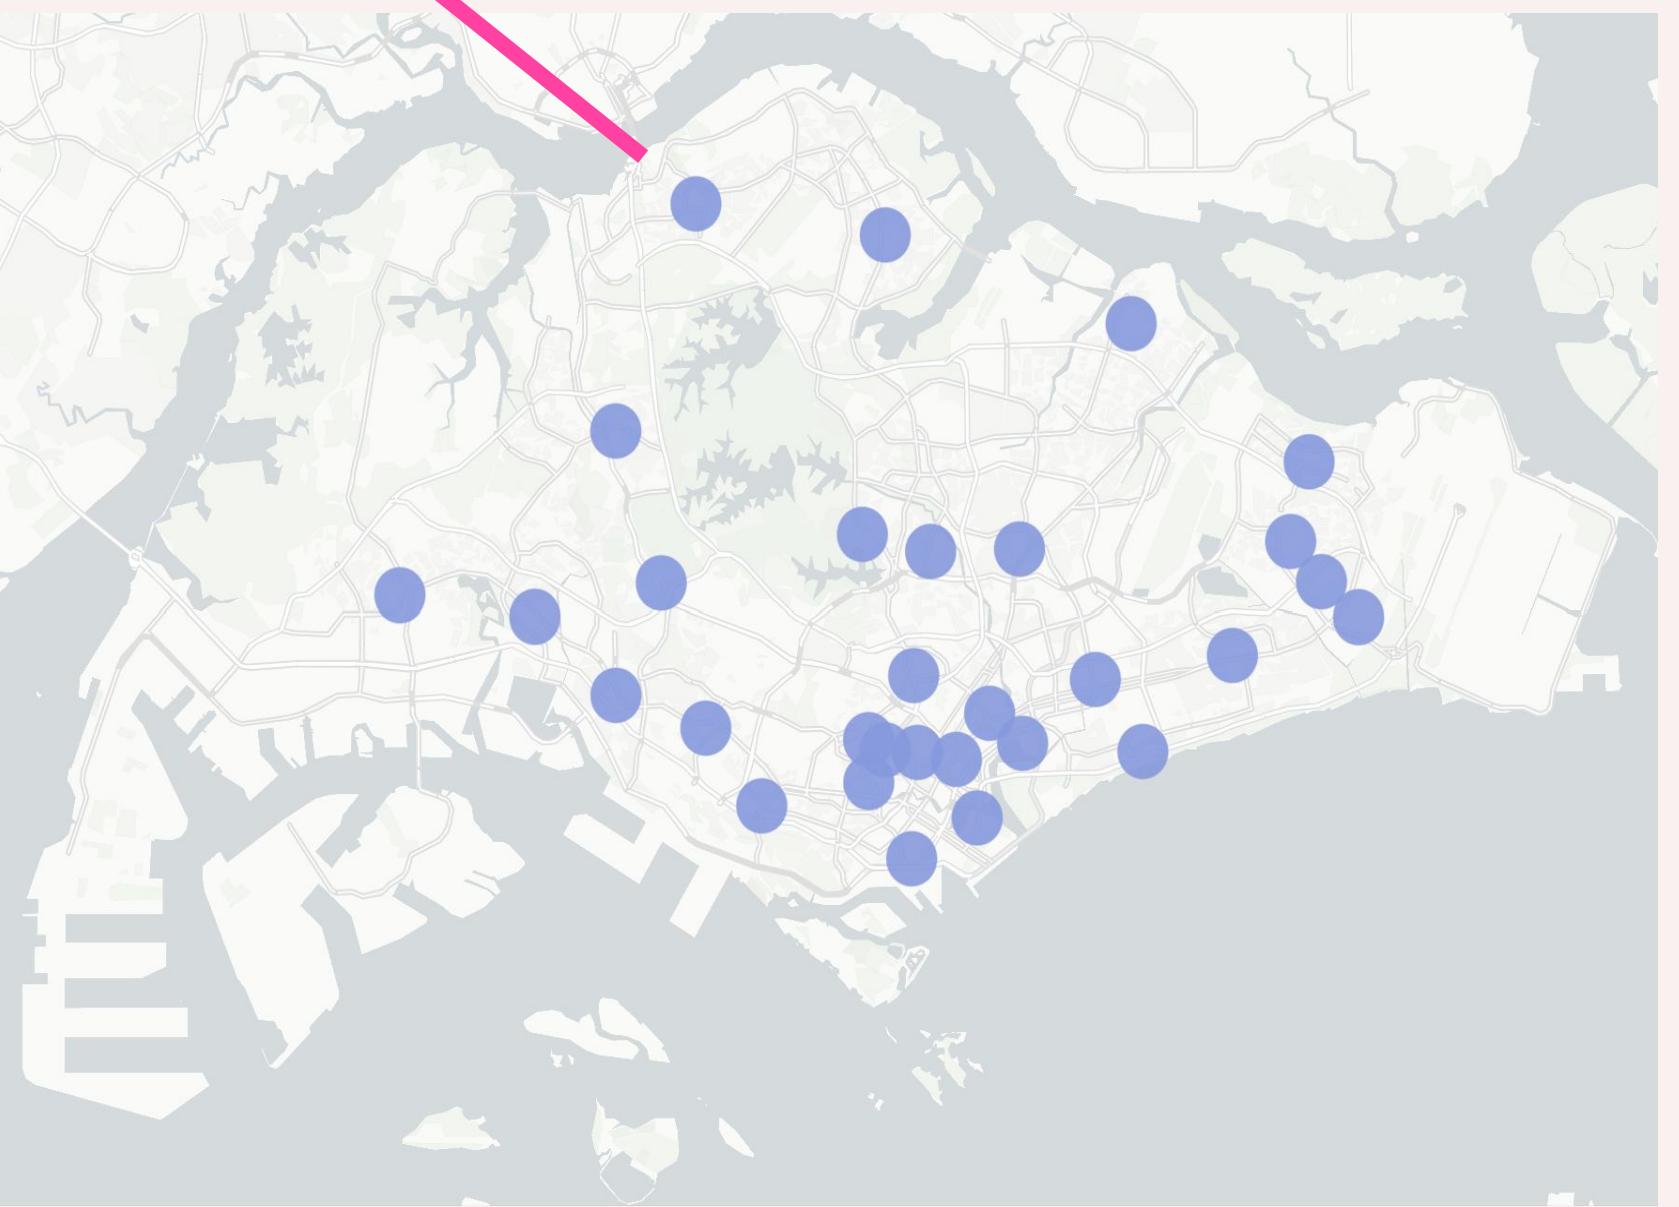

Woodlands Mart

888 Plaza

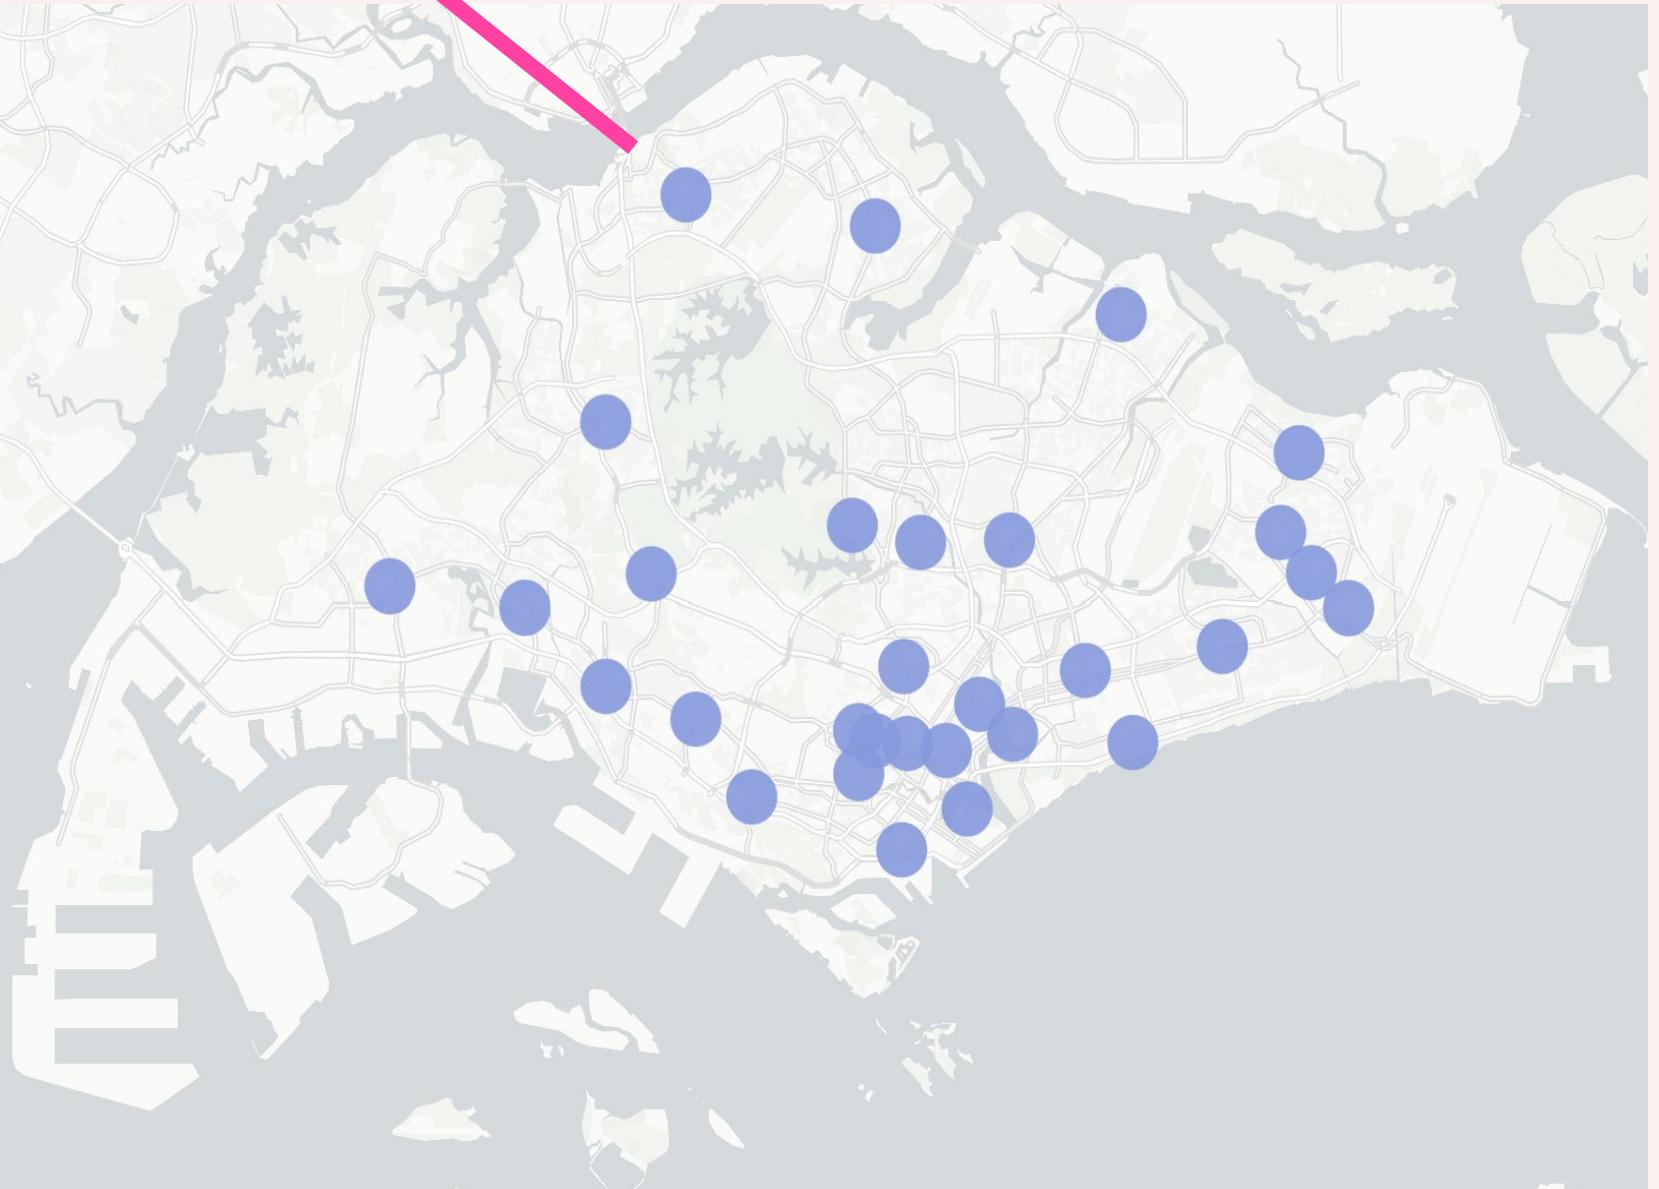

**Causeway
Point**

**Reduce shopping malls to a few
based on domain knowledge**

Causeway
Point

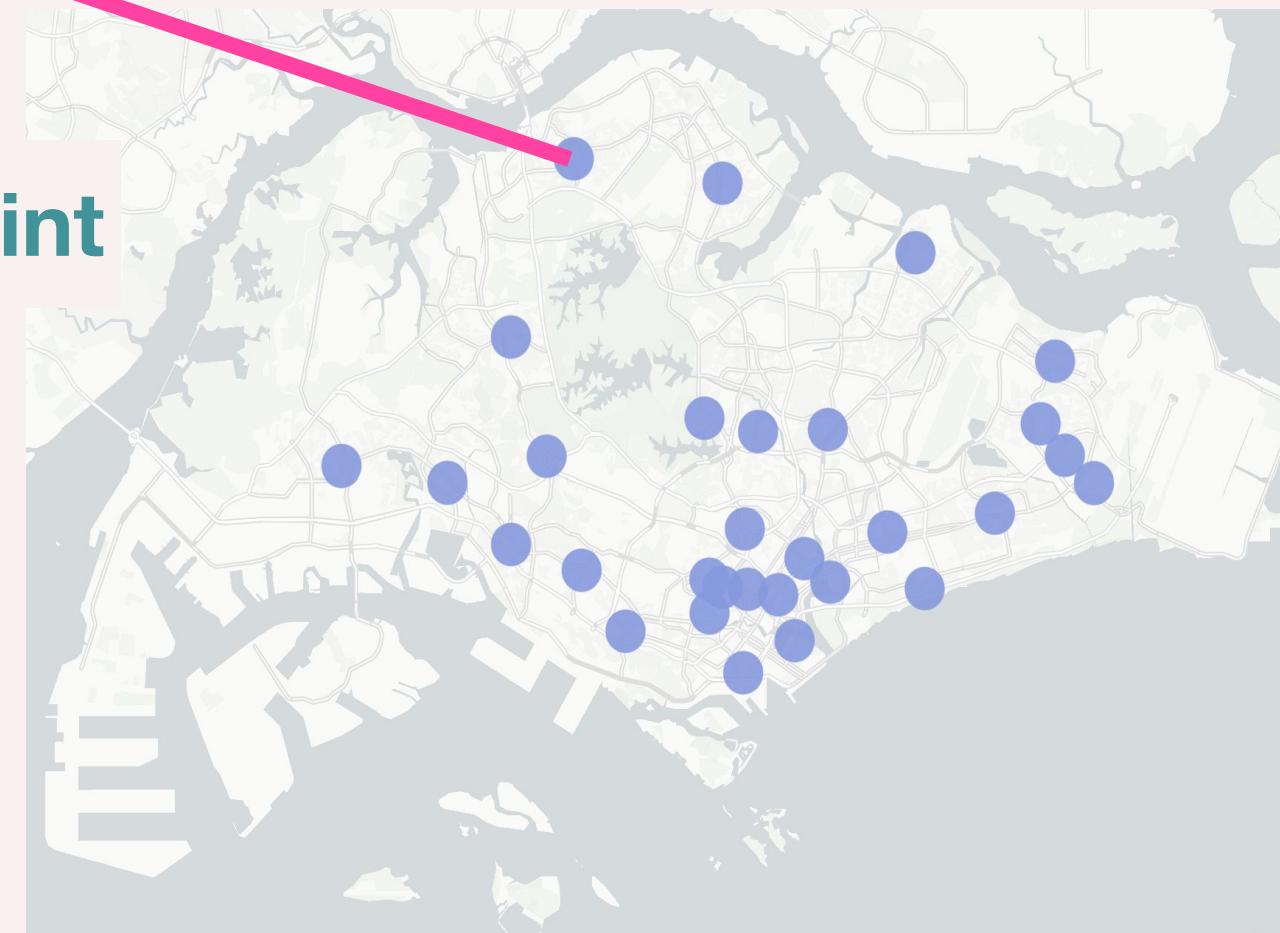

Reduce shopping malls to a few based on domain knowledge

**Tiong Bahru pre-war flat listed
at \$2m, lease left with just
43 years**

[Asiaone, 2023](#)

**This goes against our model that the older
the flat, the cheaper it gets.**

Unique Trends

Our model is able to predict general trends but does not predict “unique” cases.

Instead of classifying these as “**outliers**”, we account for these so that to improve the user experience.

Flat model: Terrace

Pre-war HDB Tiong Bahru
Year of completion in 1949

Unique Trends Solutions

We classify these “**unique**” HDB based on their **different profiles**.

Flat model: Terrace

Pre-war HDB Tiong Bahru
Year of completion in 1949

Engineered New Features

Based on domain knowledge, we have also engineered additional features that is unique to our model

- ~~Distance from Central Business District (CBD)~~

Model Performance

Model

Performance

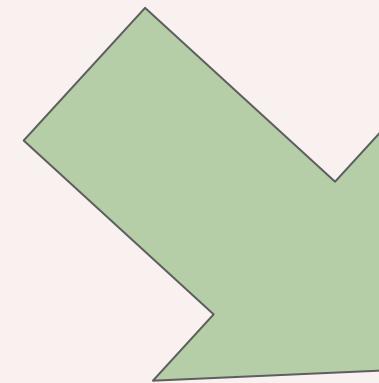

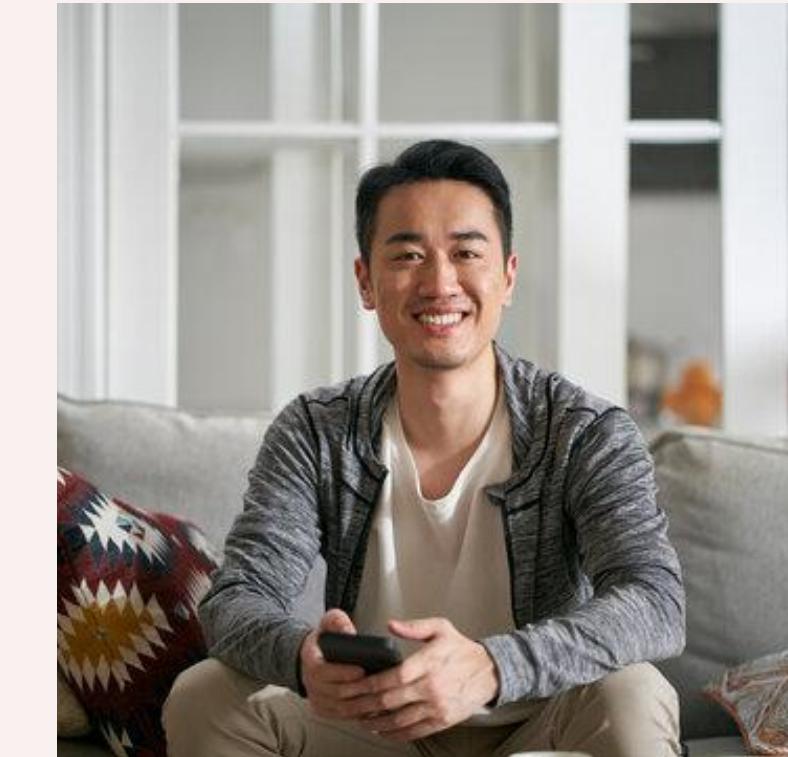

Our model is able to predict up to **90.3% of the variation** in HDB prices

The predicted data and actual varies with an average of **~\$45,000** based on our test

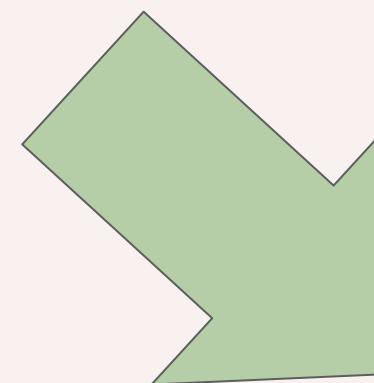

George is now a happy ERA customer as

1. Provided with consistent information
2. Agents provide similar quotations

He made ERA his agency of choice and refers his friends to us

**More earning potential for
ERA Agents**

Limitations

Agents should know the limitations of the model to prevent wrong prediction results

Limitations

Agents should know the limitations of the model to prevent wrong prediction results

- Takes time to train the model on new development areas
- Does not cater to “**unique**” HDB clusters unless identified.
- **Mature** and **non-mature** classification requires revision in the future in line with governments’ initiative

 PROPERTY NEWS Why The New Prime, Plus & Standard HDB Classification Makes Sense And How It Impacts Singaporeans

George Lee

33 years old | Marine Engineer

Details gathered:

1. **Geylang** area
2. **4 Room** flat
3. **Not** improved-Masionette or DBSS
4. **Not** Terrace
5. **Not** Pre-War
6. **9th floor**
7. **Tenure of 19 years**
8. **Size** of **900** square feet
9. Roughly about **3000m** from the **MRT**
10. His block has **20 floors**
11. Transaction year is **2021**
12. Roughly about **100m** from the Mall
13. Roughly about **7200m** from CBD

13. Roughly about 7200m from CBD

What's Next?

With more resources, we will continuously enhance our research efforts and **refine models** by leveraging our constantly updating data source from our property agents.

- Build a new set of **classification** for **new** and **upcoming clusters** and **revisions** from **government initiatives and agent's feedback**.
- Enabling the **utilization** of more **complex** models.

Thank you

DSI-SG-42
